Re: 2025-04731
Freedom of Information Act Request for SMEDEMA, HANS

Dear Hans Smedema,

This letter is in response to your Freedom of Information Act (FOIA) request in which you seek the record of proceeding regarding the above-referenced individual.

We are providing the Executive Office for Immigration Review (EOIR) Record of Proceeding (ROP) Asylum Only Case proceeding 4 22 2009 as provided to us by the Immigration Court, Federal Records Center, or Board of Immigration Appeals for the above-referenced individual. You may access and download the ROP for up to **60 days** at this link:

ROP (166 pages)-; <https://jefs.box.com/s/0m7q2p294f983e465zbakaip2rude98l>

***Important: Do not click the link. You must copy and paste the link into your browser to view the file.**

There will be no charge for this information.

Please be aware that EOIR is a component of the **Department of Justice** and the custodian of records for the "Record of Proceedings" (ROP), which is the compilation of documents and digital audio recordings produced in proceedings before the immigration courts and the BIA. The Department of Homeland Security (DHS) is the custodian of records for the "A-file," which is a series of records of a person's immigration history and is maintained and stored by DHS. **EOIR is not the custodian of records for DHS or its components, nor does EOIR have access to DHS's A-files.** EOIR does not create an ROP until matters are initiated by DHS. Nevertheless, EOIR may create and maintain ROPs for proceedings other than removal proceedings (i.e., credible fear reviews, bond hearings). You may request a copy of your Notice to Appear (NTA) and full A-file from [DHS](#).

Note that parties to immigration cases (including respondents and their representatives of record) have the option to request their Record of Proceedings directly from the immigration court or Board of Immigration Appeals. Please see the instructions here: <https://www.justice.gov/eoir/ROPrequest>.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA. See 5 U.S.C. § 552(c) (2006 & Supp. IV 2010). This response is limited to those records that are subject to the requirements of the FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist. See <http://www.justice.gov/oip/foiapost/2012foiapost9.html>.

I trust that this information fully satisfies your request. If you need any further assistance or would like to discuss any aspect of your request, please contact the analyst who processed your request or the EOIR FOIA Public Liaison at EOIR.FOIArequests@usdoj.gov. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, Room 2510, [8601](#)

Adelphi Road, College Park, Maryland 20740-6001; e-mail at ogis@nara.gov; telephone at (202) 741-5770; toll free at (877) 684-6448; or facsimile at (202) 741-5769.

If you are not satisfied with the EOIR's determination in response to this request, you may administratively appeal by writing to the Director, Office of Information Policy (OIP), United States Department of Justice, [441 G Street, NW, 6th Floor, Washington, D.C. 20530](#), or you may submit an appeal through OIP's FOIA STAR portal by creating an account following the instructions on OIP's website <https://www.justice.gov/oip/submit-and-track-request-or-appeal>. Your appeal must be postmarked or electronically transmitted within 90 days of the date of my response to your request. If you submit your appeal by mail, both the letter and the envelope should be clearly marked "Freedom of Information Act Appeal." If possible, please provide a copy of your original request and this response letter with your appeal.

Sincerely,

FOIA Delivery

Dear Mr. Finley,

In reaction to your fax of today concerning a request for information on behalf of the final individual hearing of Mr. Smedema on September 17 (I noticed that the authorization of Mr. Smedema was already signed the 17th of July) I inform you that my office indeed represents Mr. Smedema in legal proceedings in the Netherlands. On February 9, 2009 Mr. Smedema was convicted by the criminal (district) court concerning defamation (in the period of January 1st, 2007 until September 10th, 2008).

The judge found Mr. Smedema guilty to the charge of making public names of five persons (by placing their names on a website that Mr. Smedema hosts and by mentioning their names in a book that Mr. Smedema published himself), whom he accused of

1. having sexually abused his wife;
2. lying to the police;
3. signing a declaration of secrecy at the Ministry of Justice and
4. having the foetus of his wife aborted by chemical means.

Mr. Smedema was convicted to 50 hours of public labour (or 25 days of detention) and 3 months of probational imprisonment (during a term of three years). During the trial (before the district court) Mr. Smedema was not represented by any lawyer.

Mr. Smedema filed appeal and asked us to represent him during his appeal. Even though we already asked some witnesses to be heard before the higher court, there is no date for the actual hearing yet. This means that the case of Mr. Smedema is still pending and that his conviction is not irrevocable.

If you have any (further) questions, please let me know.

Yours sincerely

Dear Colleague,

On 01-18-06 I saw the above-named patient at the urology outpatient clinic per your request.

Reason for consultation: Patient not known to us. Your statement of the problem concerns an attempted sterilization as the reason for the consultation.

History: There was a supposed traumatic abuse in 1972?

Past medical history: known peri-anal skin irritation of rafe perineum.

Physical examination: on examination, the vas was palpable from the groin to the attachment to the epididymis, here there is a palpable gap or the diameter of the vas cannot be clearly traced. In any case, there has been no upper vasectomy. Comparable at left of the top of the scrotum. Therefore, possible distal duct cut through, which cannot be diagnosed on the basis of the clinical examination.

First of all, a semen analysis will be ordered. If this is good, patient is fertile and this could be an initial sufficient answer to the issue. If no sperm cells are found, it could be considered to get a clearer picture by way of exploratory surgery.

I wonder if a non-invasive examination could provide the same reliability.
To be continued at a later date.

Geachte collega,

Op 18.01.06 zag ik bovengenoemde patient(e) op uw verzoek op de polikliniek urologie.

Reden bezoek: bij ons niet bekend. Uw vraagstelling betreft een poging tot sterilisatie als reden van consultatie.

Anamnese: in 1972 zou mogelijk traumatisch misbruik zijn geweest?

Voorgeschiedenis: zoals bekend perianale huidirritatie rafe perineum.

Lichamelijk onderzoek: bij onderzoek is het vas palpabel van de lies tot aan de aanhechting naar de epididymis, alhier is of een gap palpabel dan wel de diameter van het vas niet duidelijk te vervolgen. Er is in elk geval geen hoge vasectomie gepleegd. Ter plaatse van de scrotumhals links vergelijkbaar. Derhalve mogelijk distale ductus doorsnijding, dit is niet op basis van het klinisch onderzoek te diagnosticeren.

Semenanalyse wordt als eerste aangevraagd. Indien dit goed is lijkt patient vruchtbaar en is dit een mogelijk voldoende eerste antwoord. Indien er geen spermacellen zich hierin bevinden kan overwogen worden om middels een chirurgische exploratie meer duidelijkheid te verkrijgen.

Ik vraag me af of of niet invasief onderzoek dezelfde betrouwbaarheid kan geven.
T.z.t meer.

Dear Colleague,

Date: September 8, 2003

I saw the above-named patient on 09-05-03 at the surgery outpatient clinic. History: peri-anal skin pain, sometimes becomes red, especially when walking. History of hemorrhoidectomy. Painful skin located ventrally. Patient has an unusual skin crease.

Examination of perineal rafe from anus to scrotum is slightly hypertrophic. Local skin irritation at that site.

Diagnosis: skin irritation of the rafe perineum.

Course of action: first seek opinion of dermatologist regarding possible local measures. If desired result is not obtained, excision would be a possibility.

With kind regards,
R. Looijen, Surgeon Copy: D. de Groot, Dermatologist

During the 1970s, Bremer held various domestic posts with the State Department, including posts as an assistant to Henry Kissinger from 1972–76.^[1] He was Deputy Chief of Mission in Oslo from 1976–79, returning to the US to take a post of Deputy Executive Secretary of the Department of State, where he remained from 1979–81. In 1981, he was promoted to Executive Secretary and Special Assistant to Alexander Haig.

Ronald Reagan appointed Bremer as Ambassador to the Netherlands in 1983 and Ambassador-at-Large for Counterterrorism in 1986^[2] (and Coordinator for Counterterrorism). Bremer retired from the Foreign Service in 1989 and became managing director at Kissinger and Associates, a worldwide consulting firm founded by Henry Kissinger. A Career Member of the Senior Foreign Service, Class of Career Minister, Bremer received the State Department Superior Honor Award, two Presidential Meritorious Service Awards, and the Distinguished Honor Award from the Secretary of State. Before rejoining government in 2003, he was Chairman and CEO of Marsh Crisis Consulting, a risk and insurance services firm which is a subsidiary of Marsh & McLennan Companies, Inc., a trustee on the Economic Club of New York,^[3] and a board member of Air Products and Chemicals, Inc., Akzo Nobel NV, the Harvard Business School Club of New York^[4] and The Netherlands-America Foundation. He served on the International Advisory Boards of Komatsu Corporation and Chugai Pharmaceuticals.

Bremer was appointed Chairman of the National Commission on Terrorism by House Speaker Dennis Hastert in 1999. He also served on the National Academy of Science Commission examining the role of Science and Technology in countering terrorism. Bremer and his wife were the founders of the Lincoln/Douglass Scholarship Foundation, a Washington-based not-for-profit organization that provides high school scholarships to inner city youths.

On the day Al-Qaeda terrorists crashed two hijacked American commercial jetliners into the World Trade Center in New York City, Bremer and 1,700 of his employees at Marsh & McLennan had offices in both towers. Bremer's office was in the South Tower. He and his people occupied floors at and "above where the second aircraft hit."^[5] At the time of his television interview with CNN on September 14, 2001, 450 of his colleagues were unaccounted for; 295 were eventually counted as dead.^[6]

Three hours after a commercial airliner crashed into the South Tower, Bremer appeared for a televised interview. As a leading counter-terrorist expert, Bremer offered his opinion on what will likely happen and pinpointed Osama bin Laden as the terrorist leader responsible for the attack.^[7]

In late 2001, along with former Attorney General Edwin Meese, Bremer co-chaired the Heritage Foundation's Homeland Security Task Force, which created a blueprint for the White House's Department of Homeland Security. For two decades Bremer has been a regular at Congressional hearings and is recognized as an expert on terrorism and internal security. Some of Bremer's published work includes "Warfare & Defence Military Science Alliance Response to Nuclear Weapons Proliferation", "The Alliance Response to Nuclear Weapons Proliferation: Deterrence, Defense, and Cooperative Options", and "Countering the Changing Threat of International Terrorism: Report from the National Commission on Terrorism", a *New York Times* article "What I Really Said About Iraq", and his first book, "My Year In Iraq: The Struggle to Build a Future of Hope".

refuses any aid and the government just a helping hand up to the cheaters.

He puts us in an already very interesting life and gives frank insights into what occurred and what he felt or thought at key moments, when both are still not aware of the unimaginable and horrific deception of their own family physicians and justice.

The bizarre crime that this book describes not only took place in the Netherlands, but also in Germany, France, Spain and America. An American, a member of the American intelligence service, Hans has helped, but was then brutally betrayed by the Dutch government. As he put caught, convicted, dismissed dishonourably and had he and his poor family for six years innocent die until he saw opportunity in 1996 with some help from including when Ambassador Paul Bremer to prove his innocence.

The three parts as a whole, will for many be an eye-opener. What the book describes, is almost all psychiatrists considered impossible. Hans was by six psychiatrists and became so paranoid state, without any investigation or legal defense completely disabled. 'Recovered memories as they are impossible, so (!) You are' schizophrenic ', was their mindless diagnosis. The total lawyers in the Netherlands for four years' time!

Unknown phenomenon.

Amnesia and repressed trauma, including recovered memories do exist! This book proves it, and provides insight into the creation and how to recognize. By secretly daily drugs and the infliction of serious trauma, including a power pole, there was mental hostage and total submission to the perpetrators. Volume 1 is a warning to unsuspecting girls and their loved ones. Recognize early what happens!

Part 2 - Impossible Flashbacks describes Hans Smedema's life in March 2000 to 2004. The impossible memories, inhuman immense confusion and uncertainty by the denials and cover-up where even the government has contributed. An investigation of a rape by two men, witnesses, was adopted by College of Procurators General prohibited!

Part 3 - J'accuse describes how Hans Smedema eventually able to gather so much information that hijbegint to understand how and what happened should be. He then accuses those involved and asked the public for help in proving it.

Expenditure as research uncensored version, using the right to self-defense.

Publisher's opinion:

"This incredible story grabs you by the throat. Real food for psychologists! "

Description:

'De Nederlandse Watergate?' Over dertig jaar amnesie en verdringing als gevolg van gruwelijk misbruik en bedrog, orwelliaans gedoogd door familie, justitie, medici en politici. Een doofpotaffaire die ook nu nog in stand wordt gehouden!

In dit deel 1 reconstrueert auteur Hans Smedema zijn leven tot maart 2000, het moment waarop hij als donderslag bij heldere hemel herinneringen aan ogenschijnlijk onmogelijke gebeurtenissen krijgt. Het kan niet waar zijn!

Wanneer Hans in 2000 navraag doet naar zijn dertig jaar durende geheugenverlies, ontkent iedereen, inclusief familie, medici en justitie. In de zeven jaren die volgen gaat hij met zijn lieve vrouw, door een hel. Net als iedere buitenstaander, gelooft zij niet dat een vrouw dertig jaar lang kan worden misbruikt zonder het zelf te beseffen! Niets lijkt hun bespaard te worden. Ze worden door familie en medici tegen elkaar uitgespeeld, terwijl justitie iedere hulp weigert en de overheid juist de helpende hand biedt aan de bedriegers.

Hij voert ons mee in een op zich al interessant leven en geeft zeer openhartige inzichten in wat er plaatsvond en wat hij voelde of dacht op cruciale momenten, toen beiden zich nog niet bewust waren van het onvoorstelbare en gruwelijke bedrog van hun eigen familie, medici en justitie.

De bizarre misdrijven die dit boek beschrijft, vonden niet alleen plaats in Nederland, maar ook in Duitsland, Frankrijk, Spanje en Amerika. Een Amerikaan, een medewerker van de Amerikaanse inlichtingendienst, heeft Hans nog geholpen, maar werd vervolgens meedogenloos door de Nederlandse overheid bedrogen. Daardoor werd hij gevangengenomen, veroordeeld, oneervol ontslagen en moesten hij en zijn arme gezin zes jaar lang onschuldig creperen, tot hij kans zag om in 1996 met wat hulp van o.a. toen ambassadeur Paul Bremer zijn onschuld te bewijzen.

De drie delen als geheel, zullen voor velen een eye-opener zijn. Wat in het boek

wordt beschreven, wordt nog door vrijwel alle psychiaters voor onmogelijk gehouden. Hans werd door zes psychiaters paranoïde verklaard en raakte daardoor, zonder enige onderzoek of recht op verdediging, volledig arbeidsongeschikt. 'Hervonden herinneringen zoals deze zijn onmogelijk, dus (!) je bent 'schizofreen', luidde hun stompzinnige diagnose. De totale advocatuur in Nederland heeft al vier jaar 'geen tijd'!

Onbekend fenomeen.

Amnesie en verdrongen trauma's, dus ook hervonden herinneringen, bestaan wel degelijk! Dit boek bewijst het en geeft inzicht in de totstandkoming ervan en hoe het te herkennen is. Door dagelijks heimelijk drogeren en het toebrengen van zware trauma's, met onder andere een stroomstok, was hier sprake van geestelijke gijzeling en totale onderwerping aan de daders. Deel 1 is een waarschuwing voor argeloze meisjes en hun dierbaren. Herken vroegtijdig wat er gebeurt!

Deel 2 - Onmogelijke Flashbacks beschrijft Hans Smedema's leven van maart 2000 tot 2004. De onmogelijke herinneringen, onmenselijke verwarring en immense onzekerheid door de ontkenningen en de doofpotaffaire waar zelfs de overheid aan heeft bijgedragen. Een onderzoek naar een verkrachting door twee mannen, met getuigen, werd door College van procureurs Generaal verboden!

Deel 3 - J'Accuse beschrijft hoe Hans Smedema uiteindelijk toch zoveel informatie weet te verzamelen, dat hij begint te begrijpen hoe en wat er gebeurd moet zijn. Hij beschuldigt vervolgens alle betrokkenen en vraagt het publiek om hulp bij het bewijzen daarvan.

A swarm of corrupt doctors, lawyers, prosecutors, under pressure seem to succumb to include hidden forces within the AIVD, OM, College of Attorney General, and some politicians.

A few weeks ago I came via the Internet by chance this sensational matter on the track and talked long with one of the victims. Dhr. ing H. (Hans) Smedema living in Drachten was emotionally oral report an unprecedented case that is does not seem to know. The case itself seems to play from 1972 involving rapes, drugs and corrupt practices as simply appeared as drinking a cup of coffee.

Via the website and via E - mail traffic, I was already aware of the victim that the dozens of offenders through the Justice for protection and seemed to enjoy with a corps of psychiatrists seconds the mission of the State of the Netherlands had been Hans Smedema for crazy explain. A trick often is used by global intelligence services, and what fits in the series of silence and in the interests of the corrupt part within the State.

Dhr. Hans Smedema made me sound intelligent stable impression. It was clear that I had to do with a former captain of industry, he was including director of a large engineering company with 100 employees, in a manner of speaking directly to the Prime Minister would replace.

Despite the various evidence and many witnesses who called the victim, dares the cowardly part of the legal profession, not to make him legal assistance. As each killer will directly! Protection against the injustice thus making impossible. While some courts, from earlier procedures, the equivalent of Hans Smedema simply fails! Let him quietly insane to declare own particular and that of others with butter

on their heads to save.

The victim and his wife were all from 1972 professional drugged, beaten, raped them, he was infertile and his partner as much as 6 times pregnant by the perpetrators. Tolerated by unscrupulous family and justice. The perpetrators were diverse and included include a room owner, driving school owner, plumbers, construction workers and many others. Both victims are in, and particularly by the current illegal treatment, severely traumatized for life. Even crazier is the fact that their brothers of the victim the main perpetrators of the cover appear to be the victim.

The amnesia that resulted in two victims by the prolonged torture and rape, the Hans took the greatest difficulty the right memories and facts rather than rules and perpetrators retrieval. By coincidence he came in contact with various certificates and contacts via the American CIA and Dutch BVD, and unfortunately found their nightmares not fake but the reality.

The CIA contact Al Rust chose the side of the victim and had to pay in the U.S. with temporary prison and over six years die. This led directly to the cover-up in the Netherlands and the refusal of the State to simply tell the truth. An old neighbor of the victim was murdered by the secret organization since he claimed too many questions and for the victims came.

Was also old Ambassador Paul Bremer of the cover-up to the height and the American Al Rust some help in the ultimate proof of his innocence. It was clear that this criminal organization by Hans' Group Mengele 'doped, high on the agenda of the hidden agenda of our State of the Netherlands, only to suggest something with standards and values to make it.

Nothing seems to be less true, and to date, all perpetrators still at large, with Justice, Police, the OM and the government all unauthorized funds seem towards Hans Smedema. Logically, the victims will not rest then, that the Dutch State is doing what they should do namely, truth and prosecution.

Chronologically the horrific crime in short, my wife of course primarily:

1. 1972 - drugged by the offender Jan van Beek, just divorced her landlord and room rental. Veterinary Laboratory!
2. 1972 - Entire year abused by the perpetrators, first months of drugs. After a few weeks, she was so brainwashed that they have the 'vitamin' pills evening swallowed! There is amnesia and displacement by both of us, and my wife even later, after serious assault with a power pole for animals, a double or emotional personality. One knows the other is not. They know themselves (normal personality) nothing! Or personality but on the other piece of memory was available to me is still unclear. With me was that a black hole. So any fact of abuse was still new. My wife was actually mentally hostage! I also slightly. But no one who observes. They find it a bit strange!
3. 1972 - to third parties for money. Money goes entirely to the landlord Jan van Beek They also empty bank gets for its own use. They (normal personality) know nothing, but her statements were Jan van Beek.
4. 1972 - Police had warned us are drugged after my warning hostage. She had called me and asked with an anxious voice 'Hans, bring me here please road, they let me do terrible things! A horrible story in my book!
5. 1973 - Unscrupulous family abuse to justice and see many photos and put a cover on without our permission and without medical assistance in the displacement and amnesia due to the seriousness of the crimes for more than a year. So outlawed for each abuser, because everything would be ousted immediately! Declaration was never made. Justice was nice outside shot. The bastards! Police could do nothing on the orders from above! The cover at the beginning only the earlier crime involved, the bastards to justice not of course. Cover is a cover. And we still knew nothing!
6. 1973 - Women's three days after the marriage with an excuse just missed my house naked and made to work. Police warned again takes no action and verzwijgt everything to me her husband. No medical care offered by the set cover.
7. 1973 to 1975 - Repeated abuse because we were both helpless in the absence of knowledge (amnesia and displacement) of the earlier crime. Driving teacher had the time of his life with my wife terrified! Never seen an account.
8. 1974 - Robbery, drugs and 'rape movie' of both of us. Police warned us not up to date and sees no chance of the film to get. We as defenseless victims still no medical help! It may seem they do not care. Who is this bastard to justice that has made this possible?
9. 1975 - First child is not mine, but by unscrupulous doctor Hogen Esch from 't Harde we left because of the cover. Child of the former landlord Jan van Beek from Utrecht, as he himself in 1977 to confess me.
10. 1975 - Attempted assassination of myself in Zeist / Motel Bunnik by drugs overdose. Judicial employees offender under Jan van Beek later. Doctors think of hyperventilation. Police noted that the death could have been and asks Telegraaf to victims to come forward. If found to be.
11. 1975 - Practice suggests probing questions, provides hypnosis by a psychiatrist of GGZ Zwolle to find the truth and let me still more crowd given the set cover by the government. No medical treatment in the weeks to resolve. I'm infertile in 1972, he made not something I should know! That the child is not mine, we have this bastard do not know! And we think that our own child, because my wife has never been with another!
12. 1975 - 1977 repeat abuse seen our defenseless because of the amnesia and displacement. Including Hans van der H., friend of my brother Ruud. Riding holder call if I know what it does? No so. And after it no longer. By coincidence heavy emotions had during the lesson and asked just to sex, or what compulsion?
13. 1976 - Pregnant unknown rapist, and secretly (without our permission) is driven by her sister Klazien. Of course again no medical help. Cover is a cover will be said, what can we now further care. Right?

14. 1977 - Hans van der Heide takes his staff to my house in 't Harde, after I have heard that I'm in Leeuwarden. A staff outing to my poor ignorant woman, thanks to unscrupulous family, justice, medical. My wife will watch TV, the bell rings and they are friendly so let see who can find and the ruthless Hans van der Heide on the pavement that in forcing her to sex and asks for his entire staff. They will spot her dual personality, because that can not mentally and raped by all. If I call her I get a strange man in the line of a party and quickly imposed. If I am later in 't Harde arrive I find a woman who totally shattered all the mess to clean up is implied! On a car I had seen with joel-and men waving to me. Hans van der Heide knew I had long since my poor wife. Our brain is both practical and we still know the next morning, nothing more!
15. 1977 - New child rapist. It is highly likely the employee J. the V. Hans van der Heide, the friend of my brother Ruud, who informed him of the defenseless took of my wife. Again no action, we - family, doctors and Justice - find it fine. They know nothing?
16. Jan van Beek confession in a long phone call to me at all. How smart he was, that our first child from him was that he had made me infertile secret that her father had paid a lot of money for the photos and that he had used that money to the 'rape movie' onion in 1975 to finance. Her father financed so the rape of his daughter. Was he so beautiful and smart.
17. 1977 - Frequent abuse by several construction workers who are made aware of the defenseless of my wife by the employees of Hans van der Heide and frequently invite only "advice" to give. I knew nothing, so sent her own two more times over too. Thanks to family, justice and physicians.
18. 1977 - Unscrupulous brother Johan controls that we have a special project to justice! For all even better cover to keep out of criminal law to facts. The unscrupulous bastard.
19. 1978 - more abuse, the now common 'normal rape'!
20. 1978 - Practice Lefering in Drachten read secret document (only open to intense emotions) and is furious, but told me / us nothing. 'never, they are just crazy, two adult people. He knows that plenty of us and had two possible medical treatment for them. Only a few weeks of therapy! Costs, according to secret documents covered by health insurance Rabobank! Where they worked! Something about the children, presumably it is not mine and that they did not know how it was! The bastards! Without research and then say that they do not know how it was! With pictures no less.
21. 1979 - Daughter of five (!) Call in a panic over evil (involuntarily!, She saw more opportunity to defend themselves too!) Sir my secretary Stella van Arkel. They send my foreign brother Marinus memory to my house, together with Joop de Boer manager. HP she caught in the act and save him down the stairs. We later found a strange blood stain on the wall! We understood how it was! My wife knew because nothing more. Any abuse is always new! His wife is given the wounds that he confess to me what he does and also mentioned that he knows that I forget everything and it, too. He confirms that Hans van der H. with his entire staff at my home had been a staff party. My wife repeatedly abusive, the poor. He later offers to the cost of compensation if they find that our youngest son very much he seems, which is true. And because I was infertile, it can also hardly different. Although the 'friend' from the neighborhood it could be.

Fighting against the unknown, Part 1 - Hans Smedema

Ugly cheated

A bizarre series of crimes that occurred from 1971 to the present, committed against author Hans Smedema and women, made possible by the judiciary, doctors and relatives, is described exciting. It is a very emotional and candid diary, a psychological drama and a still unsolved mystery. The gruesome story is so incredible that only a few can contain. Hans has already been 'crazy' declared by psychiatrists and by its environment. We are still impossible even so, this society story of exceptional value.

Hans and his charming wife lived for years under the assumption father and mother of three children own blood, lovingly conceived and raised. In 2000, Hans - a thunderclap in a clear sky - flashbacks indicating twenty-eight year long abuse of his wife, three children of rapists themselves infertile in 1972, three murders on him, a neighbor killed, and severe crowding in him and his wife 28 years making them defenseless and outlawed for rapists without themselves have been aware or even suspected. Any abuse was immediately repressed and never return. And everything seems possible and even helped by Justice together ulcers doctors, psychiatrists, lying and fraudulent income families, so-called friends, and stupid politicians who are only too happy to let manipulate beyond straight up Hans. His wife believes he is still not with its dual personality, and therapy is rendered impossible by the conspiracy. A torture for both who intentionally drives apart. The children or their blind eye, but most probably know what happened.

It began in 1972 where his then girlfriend a jealous lovers landlord refused and he was but a memory drogeerde derogatory way and abused. Later, she was by him so abused and tortured, that a double or emotional personality emerged and she was mentally hostage by him. His sex slaves, then everything verdrong and ignorant doorleefde, as the then ignorant Hans. In combination with the conspiracy against them, they were outlawed and defenseless against unscrupulous or with rapists of their terrible handicap.

The rejection and continued Hans Smedema has fled to Spain, living there alone, writing his book and is on the verge of Political Asylum in America to ask. Legal assistance is Hans refused, Public Administration Act is declared invalid for him, everything completely against human rights and former civil.

'The Dutch Watergate?' About thirty years amnesia and displacement as a result of horrific abuse and fraud, Orwellian tolerated by family, courts, doctors and politicians. A cover-up that still is maintained!

In this Part 1 reconstructs author Hans Smedema his life in March 2000, when he thunder in heaven clear memories of events seemingly impossible get. It may not be true!

When Hans in 2000 to inquire Thirty-year memory loss, denies everyone, including family, doctors and the judiciary. In the seven years following he with his dear wife through hell. Like any outsider, they do not believe that a woman thirty years can be abused without even knowing it! Nothing seems to be their saving. They are family and physicians against each other off, while Justice refuses any aid and the government just a helping hand up to the cheaters.

He puts us in an already very interesting life and gives frank insights into what occurred and what he felt or thought at key moments, when both are still not aware of the unimaginable and horrific deception of their own family physicians and justice.

The bizarre crime that this book describes not only took place in the Netherlands, but also in Germany, France, Spain and America. An American, a member of the American intelligence service, Hans has helped, but was then brutally betrayed by the Dutch government. As he put caught, convicted, dismissed dishonourably and had he and his poor family for six years innocent die until he saw opportunity in 1996 with some help from including when Ambassador Paul Bremer to prove his innocence.

The three parts as a whole, will for many be an eye-opener. What the book describes, is almost all psychiatrists considered impossible. Hans was by six psychiatrists and became so paranoid state, without any investigation or legal defense completely disabled.

'Recovered memories as they are impossible, so (!) You are' schizophrenic ', was their mindless diagnosis. The total lawyers in the Netherlands for four years' time!

Unknown phenomenon.

Amnesia and repressed trauma, including recovered memories do exist! This book proves it, and provides insight into the creation and how to recognize. By secretly daily drugs and the infliction of serious trauma, including a power pole, there was mental hostage and total submission to the perpetrators. Volume 1 is a warning to unsuspecting girls and their loved

'Vechten tegen het onbekende'!

Gruwelijke doofpot affaire overheid. Daarbij zijn medici en justitie zelf betrokken!

Homo sacer Hans Smedema

Posted on January 30th, 2009 in [Hans Smedema info](#) by h.smedema ||

De status van de strafzitting op 9 februari 2009 is als volgt.

Petra van der Vliet kon als advocaat niet meer mij verdedigen, doordat mijn vrouw ook cliënt was bij hun kantoor. Ze vond mr. Canoy bereid om de zaak te gaan doen. Na en voorschot van 750 euro eiste deze vrijwel direct opnieuw 750 euro, en wou niet een week wachten op de binnenkomst van de 52.000 euro uit de schadevergoeding van het niet doorgaan passeren woning. Hij stopte onmiddellijk alle werkzaamheden. Dat maakt een advocaat onbetrouwbaar, want hij kan dat ook even doen vlak voor de zitting. Later kwam hij er weer op terug, maar hij heeft ook geen e-mail en voor checken documenten moet ik dus steeds naar Leeuwarden rijden. Hij zag geen kansen om mij vrij te laten spreken, terwijl ik die heel duidelijk wel zie. Vervolgens weigerde mijn vrouw om een voorschot te betalen en sta ik dus machteloos en bijna rechteloos. Hij is volgens mij ook te licht voor de zaak van de eeuw. Al eerder had ik gebroeders Anker voor de zesde keer gevraagd en men kon niet op 9 februari, maar wellicht wel bij aanhouding of hoger beroep. Ik heb uitstel gevraagd bij Rechtbank/Griffie gezien het feit dat in deze complexe zaak iedere advocaat tijd voor inlezen nodig heeft. Het OM heeft deze zaak verziekt, vermoedelijk opzettelijk.

Ik heb ook maar zelf een document opgesteld, waarin ik om een onderzoek door Rechter Commissaris RC vraag, en vraag om voor mijn verdediging getuigen te dagvaarden.

Dat kan nooit allemaal voor 9 februari en dus zou aanhouden in de verwachting liggen en zelfs voor een eerlijke rechtsgang noodzakelijk.

Ik zal dus zonder advocaat daar op 9 februari 2009 verschijnen en heb geen flauw idee hoe het in zijn werk gaat, maar ik zie het allemaal wel dan.

Het is zeer ongebruikelijk om stukken voor de verdediging vooraf te publiceren, want de daders en hun medeplichtigen kunnen immers op grond daarvan afspraken maken en zelfs tot omkoping of bedreigen overgaan.

Toch heb ik besloten dat wel te doen. En om de volgende zwaarwegende reden. Uit de stukken blijkt dat rechercheur Bolier en Officier Justitie Rietveld (als dat degene is die dit allemaal regelt) uitgaan van het feit, dat Hans Smedema gek is. Dat blijkt ook uit het feit, dat men het niet eens nodig vindt om ter verdediging voor Hans onderzoek te verrichten. Een grove wanprestatie die hun carrière zeer nadelig zal gaan beïnvloeden in de toekomst. Obstructie van recht en waarheidsvinding. Hans is daarmee volledig afhankelijk van het kennis- en ervaringsniveau van de rechter die gaat beslissen of Hans recht op verdediging heeft of niet. En of dat een Meervoudige kamer wordt of niet. Dat is levensgevaarlijk, want als Hans geen verdediging mag voeren, is hij natuurlijk kansloos. Dat is niet eerlijk en niet toegestaan in onze rechtspraak, maar als Hans gedwongen wordt om zich ten overstaan van stompzinnige psychiaters te verdedigen, die al helemaal geen onderzoek zullen doen of het waar is of niet, dan kan

de situatie ontstaan, dat Hans zelfs levenslang TBS krijgt. Hoewel een website en Blog geen gevaar opleveren en dus tbs niet aan de orde kan zijn. Zou men dat met een beroep op de staatsveiligheid wel doen, en hij het altijd zal blijven ontkennen, kan hij daar nooit meer uitkomen. Dat is ook gebeurd met Theo Tamboer die levenslang TBS heeft gekregen, omdat stompzinnige psychiaters uitgaan van een foutieve beslissing van de rechter en hem pas willen vrijlaten als hij eerst bekend! Het boek 'De slapende rechter' van o.a. W.A. Wagenaar, omschrijft dat heel mooi als ook stompzinnig, hoewel wat netter dan.

Ik moet dus al nu vooraf al mijn stukken ter verdediging publiekelijk bekend maken. Ik doe dat wel zonder adressen en deels geanonimiseerd.

Hier mijn verzoek om uitstel: [uitstel](#)

En hier mijn verzoek om vooronderzoek RC en dagvaarden getuigen:

Deze zaak is een echte thriller en zal bij een eerlijke procesgang nog lang duren. Vrijwel zeker Hoger Beroep, Hoge Raad en uiteindelijk Europees Hof - EVRM.

Het kan dus zijn dat de mij nog onbekende rechter alle ter verdediging opgeroepen getuigen gewoon weigert omdat hij immers al voldoende bewezen acht, dat Hans schuldig is en helemaal geen recht heeft op getuigen of beter onderzoek.

Daartoe zal ik nu een pleidooi opstellen zonder juridische kennis, dus al bijna kansloos, maar beter dan niets. Het wachten is nog steeds op een integere advocaat van voldoende niveau die ons wel wil(durft) verdedigen! Als de zaak vooraf wordt aangehouden zal ik dat hier melden, maar kan ook pas op de zitting gebeuren. Of niet!

Vechten tegen het onbekende

Smedema, Hans

'De Nederlandse Watergate?' Over dertig jaar amnesie en verdringing als gevolg van gruwelijk misbruik en bedrog, orwelliaans gedoogd door familie, justitie, medici en politici. Een doofpotaffaire die ook nu nog in stand wordt gehouden!

In dit deel 1 reconstrueert auteur Hans Smedema zijn leven tot maart 2000, het moment waarop hij als donderslag bij heldere hemel herinneringen aan ogenschijnlijk onmogelijke gebeurtenissen krijgt. Het kan niet waar zijn!

Wanneer Hans in 2000 navraag doet naar zijn dertig jaar durende geheugenverlies, ontkent iedereen, inclusief familie, medici en justitie. In de zeven jaren die volgen gaat hij met zijn lieve vrouw, door een hel. Net als iedere buitenstaander, gelooft zij niet dat een vrouw dertig jaar lang kan worden misbruikt zonder het zelf te beseffen! Niets lijkt hun bespaard te worden. Ze worden door familie en medici tegen elkaar uitgespeeld, terwijl justitie iedere hulp weigert en de overheid juist de helpende hand biedt aan de bedriegers.

Hij voert ons mee in een op zich al interessant leven en geeft zeer openhartige inzichten in wat er plaatsvond en wat hij voelde of dacht op cruciale momenten, toen beiden zich nog niet bewust waren van het onvoorstelbare en gruwelijke bedrog van hun eigen familie, medici en justitie.

De bizarre misdrijven die dit boek beschrijft, vonden niet alleen plaats in Nederland, maar ook in Duitsland, Frankrijk, Spanje en Amerika. Een Amerikaan, een medewerker van de Amerikaanse inlichtingendienst, heeft Hans nog geholpen, maar werd vervolgens meedogenloos door de Nederlandse overheid bedrogen. Daardoor werd hij gevangen gezet, veroordeeld, oneervol ontslagen en moesten hij en zijn arme gezin zes jaar lang onschuldig creperen, tot hij kans zag om in 1996 met wat hulp van o.a. toen ambassadeur Paul Bremer zijn onschuld te bewijzen.

De drie delen als geheel, zullen voor velen een eye-opener zijn. Wat in het boek wordt beschreven, wordt nog door vrijwel alle psychiaters voor onmogelijk gehouden. Hans werd door zes psychiaters paranoïde verklaard en raakte daardoor, zonder enige onderzoek of recht op verdediging, volledig arbeidsongeschikt. 'Hervonden herinneringen zoals deze zijn onmogelijk, dus (!) je bent 'schizofreen', luidde hun stompzinnige diagnose. De totale advocatuur in Nederland heeft al vier jaar 'geen tijd'!

Onbekend fenomeen.

Amnesie en verdrongen trauma's, dus ook hervonden herinneringen, bestaan wel degelijk! Dit boek bewijst het en geeft inzicht in de totstandkoming ervan en hoe het te herkennen is. Door dagelijks heimelijk drogeren en het toebrengen van zware trauma's, met onder andere een stroomstok, was hier sprake van geestelijke gijzeling en totale onderwerping aan de daders. Deel 1 is een waarschuwing voor argeloze meisjes en hun dierbaren. Herken vroegtijdig wat er gebeurt!

Deel 2 - Onmogelijke Flashbacks beschrijft Hans Smedema's leven van maart 2000 tot 2004. De onmogelijke herinneringen, onmenselijke verwarring en immense onzekerheid door de ontkenningen en de doofpotaffaire waar zelfs de overheid aan heeft bijgedragen. Een onderzoek naar een verkrachting door twee mannen, met getuigen, werd door College van procureurs Generaal verboden!

Deel 3 - 'J'Accuse' beschrijft hoe Hans Smedema uiteindelijk toch zoveel informatie weet te verzamelen, dat hij begint te begrijpen hoe en wat er gebeurd moet zijn. Hij beschuldigt vervolgens alle betrokkenen en vraagt het publiek om hulp bij het bewijzen daarvan.

eerste uitgaven als ongecensureerde onderzoekversie, gebruikmakend van het recht op zelfverdediging.

Statement of Hans Smedema in Asylum case.

'Never in history, have so few, been betrayed so badly by so many.'

The American 'Declaration of Independence' makes clear that any Government has to make sure that their people can achieve 'Life, Liberty, Safety and Happiness, even when a King is involved.

So if a Government becomes 'Destructive to that End', it is the 'Right of the People' to even institute new Government and America did just that! They got rid of a King, as I have to get rid of a Queen.

Political Asylum is based on the same principles and gives those who are betrayed or mistreated by their own government, or certain people inside the government, protection and a safe place. This is exactly the case now with Hans Smedema and his still defenseless wife, who is being taken in fact 'a mental hostage' in the Netherlands.

This unbelievable case of Hans Smedema, his wife and American Al Rust, needs after 36 years of unethical decisions and criminal acts by certain scrupulous Dutch people, among which Family, Officials, Physicians and Politicians, a firm and for once ethical and sincere decision. Only that can make an end to this scrupulous sequence of cruel crimes.

What makes this case so cruel and unique, is the fact that the victims have still to suffer, only to protect the ones that made terrible wrong, unethical and criminal decisions. Even after now 36 years of cruel behavior they are not willing to stop their mistreatment, although they know it's causing severe pain and financial distress for the innocent victims.

Even more disgusting is the fact that the citizens of two countries are betrayed by this conspiracy and unethical behavior. The Dutch people, but also the American people. The Dutch people because they are not allowed to know and learn, or to know that large amounts of tax money are secretly used to betray innocent citizens and victims, the Americans because the Dutch are using this fraud mixed with legal special rules to force the Americans to keep silent about the Dutch illegal and unethical behavior

This caused American Al Rust to suffer for almost 10 years and even now causes ethical people like Paul Bremer, but also other American Government Officials, to keep silent about certain things against their own normally ethical behavior.

This all could be to protect the former Queen Juliana who was only lured into this by signing a special ruling, and Officials from being publicly negatively connected to this cruel case. The poor victims are not considered in their thinking.

I would like to make very clear that I don't think America is obliged to give me Asylum of course. America has done more than its share of helping other people and countries.

Statement of Hans Smedema in Asylum case.

But granting Hans Smedema Asylum would quickly make an end to these 36 years of mistreatment and scrupulous behavior. At last justice would be done and the mistreatment of Hans and his wife would soon stop.

Hans would be able to have a simple warranted DNA/father ship test done for their three children and have a forensic surgeon examine the facts about the scar not being a scar by the Dutch, and the fact that he must have been made infertile in 1972 by his enemies. And after informing the Dutch people they would be very grateful to know what was done to some of them and how, so they can make sure this will never happen again.

The current proof in this case, is only that Hans is not insane, as the Dutch try to make sure. The following facts and evidence points to that fact and that at least an attempt must have been made to secretly make me infertile.

1. The last letter of the Dutch Prime Minister JanPeter Balkenende proves that he doesn't want to solve this case and refuses to communicate anymore, making asylum the only last solution. He is, like stated in the Declaration of Independence 'Deaf to the Voice of Justice! This gives America the right to grant me Asylum.
2. The letter of Urologist Smorenburg about feeling a 'Gap' on both funnicles, proves that someone must at least have tried to make me infertile, making 'Delusions' impossible.
3. The letter of dermatologist De Groot proves that something had to be burned away over 7 cm, which at the very minimum points to a scar being very probable. I can't yet prove that surgeon Hermsen called it a very badly stitched scar made at a mature age years earlier and that he already warned me for the fact it would cause problems later with aging! Together with the Gap however it proves that Delusion or being insane is statistically impossible. Chances must be much less than one to several million for both of that to happen if not zero. And nobody ever heard about a 'Delusion' leaving a Scar or a Gap.
4. Based on this the Dutch Police and Justice should have investigated, but refused to do that, which points to the fact that my story about this being a big conspiracy is true. I am not allowed access to my laptop with all my files and documents, so I am not allowed to provide you with more evidence from several documents available.
5. Proof already known to the American Government is the cruel case of innocent American Al Rust and his Family. After being innocently dishonorably dismissed from Military Intelligence in 1987, he was able to get the deleted secret file about Hans Smedema and his wife from Germany in 1996, and proof that he was right about the conspiracy by the Dutch Government against Hans and his wife. The CIA and more officials were involved. This case alone should be enough proof that Hans Smedema indeed is the victim of an unbelievable conspiracy and should get Asylum. Delusions are impossible with all my knowledge about Al Rust.

Statement of Hans Smedema in Asylum case.

6. Paul Bremer, in 1996 USA ambassador in the Netherlands, told me to ask for political asylum and said they would take good care of me. ' You have never done anything wrong' he said. Not sure yet to me is, if he is legally allowed to confirm this without me having political asylum first!
7. There are a lot of documents that can proof that Justice department, Police, Ministry of Justice, Ministry of Internal Affairs and College Procureurs Generaal(Attorney Generals of the USA) refuse to open up their (secret) files about this case, as they didn't in the case of American Al Rust. But I was not allowed to get access to my laptop computer which is in my luggage. Doing research with all the files in the computer is also impossible then. Staying any longer in BTC or an appeal is useless for the same reason. I asked for permission on July 1th, but never received an answer from supervisor Haitian mr. Brunache. He only wants me to do certain things for him, but has never answered several requests. I don't even have copies of my requests. Asking for my E-Ticket back to Madrid valid on this very day July 16th, to be able to reschedule that to a later day in the case of removal, was also not answered. But once I was allowed to clean his candy pot for him, and because of his unfriendly behavior later refused to do anything for him anymore. This BTC is against human rights, it took me over two weeks to prepare this document, which would have taken only half a day outside.

Why Hans should get Asylum?

1. A fact is, that this whole conspiracy is based on fraud with secret documents, betrayal and extortion. Hans never signed knowingly a document giving his brother the right to decide for and over him. Hans would have never done that! Nor did his wife sign such a thing. Hans did never out of free will sign a document giving psychiatrist Onno van der Hart the right to decide for and over him either. Although Hans now knows that he was pressed to do so after refusing twice, after being tortured and with the use of memory blocking drugs twice. America doesn't have to act based on the request from the Dutch to help with this conspiracy. It is against human rights and against their Declaration of Independence and constitution! Only giving Hans Smedema Asylum will solve that unethical problem causing great dilemmas for all involved.
2. Proving a conspiracy is big as this one with a state involved is almost impossible to do for any individual. My case resembles Alexander Solzenitsin and I don't think he could proof everything either.
3. Granting Asylum to Hans Smedema, will not cost any money, but will bring economical stimulance with damage payments, interviews, published books and almost sure a movie. Could be many millions easily if done wisely.
4. I only need protection from the Dutch who can force America to falsify new DNA tests about the three children and about the scar and being made infertile. After Asylum manipulation should be impossible.

Statement of Hans Smedema in Asylum case.

5. Both the Dutch and American people will be very great full to see this sequence of scrupulous crimes end at last and be able to learn from it. Even if we save only one girl, it would be worthwhile.
6. The simple fact that I had to be placed into this BTC, is prove that the Dutch conspiracy is powerful and influential. This would normally not be necessary told Al Rust me. But in this case it protects me against the Dutch until asylum has been given. Only then can they start helping me.
7. The report about the Human Rights in the Netherlands being fine, is correct. But it was also correct when the American Watergate happened, and this is the Dutch Watergate. The report doesn't rule out mistakes and/or betrayal.
8. Going back to the Netherlands is impossible. I am defenseless without lawyers, legal investigations and a wife who has been forced to believe that I am insane. I would end up in jail without any legal defense, when I try to defend my wife or myself.
9. Spain is impossible because it is a Kingdom and part of the EU. The language is a problem also. Also they have no proof of my case, like America does have.
10. My health is going worse and worse. I feel very depressed to have to live in a place like this who only try to make your life as bad as possible. I must leave now. Asylum is not even the most important item now, staying a live and be free again is!
11. The fact that overstay is named is not correct. Nor was the Visa waiver stamped! This must be a mistake.

Only when I am really welcome in the USA, I will want to stay here. When I have to fight my way into this country, I will rather go somewhere else. Meaning I am going to waive the right to appeal your decision. I will never force my way into America, which people I consider to be very good friends.

I hope you will take the only wise decision possible in this case, granting Hans Smedema Asylum. If not I ask for voluntary departure and will go to Panama next.

'History has proved to be always on the side of those who stand up for justice.'

President Obama.

PART B. INFORMATION ABOUT YOUR APPLICATION

(Use Supplement B Form I-589 or attach additional sheets of paper as needed to complete your responses to the questions contained in PART B.)

When answering the following questions about your asylum or other protection claim (withholding of removal under 241(b)(3) of the Act or withholding of removal under the Convention Against Torture) you should provide a detailed and specific account of the basis of your claim to asylum or other protection. To the best of your ability, provide specific dates, places, and descriptions about each event or action described. You should attach documents evidencing the general conditions in the country from which you are seeking asylum or other protection and the specific facts on which you are relying to support your claim. If this documentation is unavailable or you are not providing this documentation with your application, please explain why in your responses to the following questions. Refer to Instructions, Part 1: Filing Instructions, Section II, "Basis of Eligibility," Parts A - D, Section V, "Completing the Form," Part B, and Section VII, "Additional Documents that You Should Submit" for more information on completing this section of the form.

1. Why are you applying for asylum or withholding of removal under section 241(b)(3) of the Act, or for withholding of removal under the Convention Against Torture? Check the appropriate box (es) below and then provide detailed answers to questions A and B below:

I am seeking asylum or withholding of removal based on

- Race
- Religion
- Nationality
- Political opinion
- Membership in a particular social group
- Torture Convention

A. Have you, your family, or close friends or colleagues ever experienced harm or mistreatment or threats in the past by anyone?
 No Yes If your answer is "Yes," explain in detail:

- 1) What happened;
 - 2) When the harm or mistreatment or threats occurred;
 - 3) Who caused the harm or mistreatment or threats; and
 - 4) Why you believe the harm or mistreatment or threats occurred.
- 1) Cover up of crimes(rapemovies, torture, made infertile, and abuse) against me and my wife in 1972. Conspiracy to keep me and my wife unaware of the fact we both had severe selective amnesia and suppression of everything related to abuse. This caused us both being declared outlaws and made us defenseless against further abuses and rape. See supplement B for much more crucial information!
- 2) Most in 1972, but because of the cover up, abuse never stopped and went on until at least 2003, maybe more. In March 2000 my memory came slowly back, but all concerned denied everything causing me to get mentally broken and sick. PTSS. So cover up still ongoing causing big problems and torture.
- 3) Family and State/Justice department, including politicians who were misled/fraud by a brother.
- 4) Afraid of bad publicity if the story gets out.

B. Do you fear harm or mistreatment if you return to your home country?
 No Yes If your answer is "Yes," explain in detail:

- 1) What harm or mistreatment you fear;
 - 2) Who you believe would harm or mistreat you; and The Dutch state and/or the Justice department.
 - 3) Why you believe you would or could be harmed or mistreated. I am defenseless against the Dutch state.
- 1) De Dutch state is keeping the conspiracy and cover up in full swing. Making it me impossible to proof my case against rapist and also making it impossible to have my wife treated for dissociation/emotional personality. She can still be abused or raped without knowing it in her normal personality afterwards!
Lawyers are not allowed to help me legally with this cover up case, although in more normal cases they do. So we are defenseless against criminals and because my wife thinks I am insane as a result of the conspiracy, our marriage is breaking down making live a torture for both of us.
She even filed charges against me together with the abusers and lying family! I was innocent sentenced and without a lawyer(!) present! All defenses denied! All is totally against all Human Rights!
See Supplement B - 1 B 1) for more info.

PART B. INFORMATION ABOUT YOUR APPLICATION Continued

2. Have you or your family members ever been accused, charged, arrested, detained, interrogated, convicted and sentenced, or imprisoned in any country other than the United States?

No Yes If "Yes," explain the circumstances and reasons for the action.

After I accused the rapist and fathers of the children, and asked for an official investigation, it was refused. When I published about this on my Blog 'Fighting the unknown' in Dutch, the rapist and others were allowed to file charges against me! With two weeks left and in fact one week, because lawyers are NOT allowed to help us, or think my story is insane because of the conspiracy against me, I could not get a lawyer. And this is too complex for one or two weeks to comprehend and make a good defense based on the law of self-defense. Without having a lawyer present I was denied an investigation, denied waiting for a lawyer, denied all witnesses, denied my own defense, and sentenced for 50 hours service or 28 days in prison, and three months conditional in prison, paying 1500 euro to three persons and 2300 euro to the rapist who is the father of our youngest son. I could file for a higher court and famous lawyer Moszkowicz has taken that case. But they are not allowed, or don't believe in the conspiracy without proof. So I can never have an honest trial. For the last weeks no contact with Moszkowicz (10,000 euro) was possible, meaning they are probably forced not to aid me. I only had ONE interrogation with a Police detective Bolier, and I knew nothing about the case being built against me at all! No warnings nothing at all until three weeks before the court session.

3. A. Have you or your family members ever belonged to or been associated with any organizations or groups in your home country, such as, but not limited to, a political party, student group, labor union, religious organization, military or paramilitary group, civil patrol, guerrilla organization, ethnic group, human rights group, or the press or media?

No Yes If "Yes," describe for each person the level of participation, any leadership or other positions held, and the length of time you or your family members were involved in each organization or activity.

Member political party VVD (Liberals) 30 years.

- B. Do you or your family members continue to participate in any way in these organizations or groups?

No Yes If "Yes," describe for each person, your or your family members' current level of participation, any leadership or other positions currently held, and the length of time you or your family members have been involved in each organization or group.

4. Are you afraid of being subjected to torture in your home country or any other country to which you may be returned?

No Yes If "Yes," explain why you are afraid and describe the nature of the torture you fear, by whom, and why it would be inflicted.

This conspiracy is approved by the politicians being misled or not thinking ethical enough. Probably the Queen was asked to sign a special ruling for me/us never to be investigated by the Justice department. The cover up is still ongoing. DNA tests falsified, MRI scan falsified, scar from illegal making infertile suddenly normal skin damage, lawyers manipulated, witnesses manipulated, physicians manipulated, my wife thinks I am insane, in fact everybody thinks I am insane, I am financially getting in big problems now, living from an insurance payment, etc. We can not live a normal life now and me and my wife even fight against each other! Mental torture! Simply telling the truth would solve all problems, but the Dutch state refuses to publicly tell their own people what they did to us innocent victims! And kept silent about American Military Intelligence Al Rust who suffered for nine years also because of the lying of the Dutch state who refused to tell the truth also in 1987! Because it is made legally by the politicians and special ruling by the Queen, the Dutch can ask America and EU members for help in keeping the cover up going! Only making sure I get American nationality asap, America can help me and defend my Human Rights I was told by Al Rust and old Ambassador Paul Bremer. Many Human Rights are violated. I can be sentenced without having legal help and an honest chance! The right to file charges against unlawful acts against us is denied to me. See supplement!

No Yes If "Yes," describe in detail the circumstances of your visit (for example, the date(s) of the trip(s), the purpose(s) of the trip(s), and the length of time you remained in that country for the visit(s)).

Emigrated to Spain because of persecution in the Netherlands, to look for help from lawyers in my battle with the Dutch state en the conspiracy against me.

That didn't work out, they don't believe me and this is to complicated for most lawyers.

Spanisch lawyers didn't have enough knowlegde and can't read the Dutch documents.

The old house Sydwende 97, 9204KD Drachten, Netherlands was sold on contract, but it was a fraud.

Probably on purpose by the Dutch state, or an enemy and rapist of my wife. No prove of that, but very rare in the Netherlands to lie about the financing being oké for months.

He never paid us and kept us on a 'leach' causing great financial distress.

So I was forced to go back to the Netherlands in december without enough money and three houses.

I was then summoned and sentenced without(!) help from a lawyer.

Defending myself in the Netherlands is impossible and planning to go to America next.

During an interrogation on June 14th 1996 in Amsterdam old Ambassador Paul Bremer invited me to come to the USA and stated they would take good care of me. Not sure how this is now?

5. Are you filing the application more than one year after your last arrival in the United States?

No Yes If "Yes," explain why you did not file within the first year after you arrived. You should be prepared to explain at your interview or hearing why you did not file your asylum application within the first year after you arrived. For guidance in answering this question, see Instructions, Part 1: Filing Instructions, Section V. "Completing the Form," Part C.

6. Have you or any member of your family included in the application ever committed any crime and/or been arrested, charged, convicted and sentenced for any crimes in the United States?

No Yes If "Yes," for each instance, specify in your response what occurred and the circumstances; dates; length of sentence received; location; the duration of the detention or imprisonment; the reason(s) for the detention or conviction; any formal charges that were lodged against you or your relatives included in your application; the reason(s) for release. PART BQUESTION 1 A 1) What happened

During 1972 my girlfriend was drugged, abused and raped for over a year and got severe suppression and selective amnesia. Later after torture, a double or emotional personality developed, causing her to be a sexslave obeying orders after some mistreatment. In fact this was being a mental hostage! Very rare situation and a lot(most) people thinks this is impossible! But NOT remembering a thing being with normal people. She would be person W1, and after some forcing become person W2. She could not warn me or others and still NOW doesn't know about all the rape from 1972 until at least 2003. Because in 1972 I was in the way, they drugged me also and made me secretly infertile to make it possible for the rapist and homeowner 'Jan van Beek' to have a child from my girlfriend later. I got severe suppression also and didn't know this until in March 2000 my memory came slowly back. End 1972 family discovered but decided with Justice department to cover all up as we didn't know anyway. We married and thought we got three children from me, but the first child was from rapist Jan van Beek. Family and physician together with a Justice department must have decided to now add me to the conspiracy and cover up. Someone tried to murder me in 1975 in the town Zeist, but failed. I was tortured or mistreated by a psychiatrist Onno van der Hart and after being drugged twice(Witness!) forced to sign a document probably giving him the right to decide for and over me, to keep me and my wife from ever discovering about the conspiracy against us. Could be to protect the ones who helped covering up everything and were innocent to the many rapes who occurred by those who knew we both were defenseless with immediately severe suppression and thus never being able to file charges! Being defenseless the abuse or rape went on and on. Around 1983 I did business with the '97th General Army Hospital in Frankfurt Germany and became friendly with Captain Al Rust. Name can differ a bit, he was manager facilities. When intelligence had to sign of and screened me and my company, he found out there was a big file about me I didn't know about! The file was instantly deleted by the Dutch to cover up! After an informal(!) interrogation outside the hospital they found out I had indeed amnesia and didn't know about the pornmovies made from us, never had treatment from a psychiatrist contrary to what was in the files, and didn't know the three children were not mine!

The cover up made knowing about the many crimes, abuses or rapes impossible. Al Rust kept an eye on me and was asked to join the Military Intelligence because he was now very interested. He lived around Chicago and when I entered around June 1st 1986 New York he was alerted and tried to help me by simply stating the truth about me being a victim, not a perpetrator. Therefore I became CEO of a Dutch subsidiary of Baker Brothers Stoughton near Boston. When my wife because of her double personality had unwillingly sex with an employee(because of the cover up), I was fired. During a courtcase a CEO from Baker Brothers showed a letter from the CIA about me being involved in porn. I won the case and got 80.000 guilders payment. But Al Rust in 1987 was now charged by Baker Brothers and later by the State or People and could not prove his case about the cover up and the conspiracy from the Dutch state. He was put in jail and dishonestly (innocent) fired. 9 years later with help from somebody unknown he could get a copy of the deleted file which was copied and saved from Germany and prove his reopened his case around 1996/7. Old ambassador Paul Bremer interrogated me about this case making sure Al Rust was right and me having amnesia. Al Rust won his case and got paid several years normal income or so. The abuse went on and on, when nobody was prosecuted by the Justice department and word spread out my wife could be raped at will without ever remembering afterwards or file charges. In January 1991 a prosecutor tried to investigate, but was even ordered to stop the investigation by the highest Dutch 'College Procureurs Generaal'!

When in March 2000 my memory came back the scrupulous members of this conspiracy against me and my defenseless wife denied everything! This caused great distress, as my memory started reconstructing everything and after three years I knew we were being betrayed and mistreated by our own Family, Physicians, Police, Justice department, and more. Had three children from rapist, had never had any help from anyone, were denied any information about his crime of the century and knew politicians had approved this. Probably the Queen has signed the special ruling needed to stop any investigation! Only becoming an American with protection from the constitution can save me and maybe later help my wife. I wrote a Dutch book called 'Fighting the unknown' about this which still has to be translated, but no money for that now. Without legal aid from outside the Netherlands, I am defenseless and helpless. Proof of all this could be found in the files about the courtcases against Al Rust in Stoughton near Boston. If not deleted after a request from the Dutch State. Al Rust, his wife and child Zoicite, Paul Bremer, Judges, lawyers and CIA should know.

Part: B

Question: 1 A 1 What happened.

More crucial information about the conspiracy against Hans Smedema (and his wife) in the Netherlands. In the Dutch book 'Fighting the unknown' part 1 – Scrupulous betrayal, at what happened is told. It needs to be translated. The part 2 – Impossible flashbacks is also ready, but needs editing and translating. Part 3 – J'accuse, will take a month or two three.

How it started and the aim of the conspiracy:

1. Family in end of 1972 found out we both had amnesia and severe suppression from severe abuse and trauma. My girlfriend and later wife could be abused without her remembering it later. She had a double or emotional personality. Instead of having us treated they decided to keep everything covered up as talking to us was impossible. Justice department will maybe have asked for written documents.
2. My brother Johan Smedema asked me to sign a blank paper stating it would help me later. He refused to tell me where it was for and later denied the existence.
3. After they discovered I was made infertile and the first child was not mine in 1975, two men tried to murder me in Zeist Motel. Police was involved warned by a woman.
4. They had me forced to sign another document while being drugged and tortured (a witness went to the police) by psychiatrist Onno van der Hart.
5. I was lured to appear before a political committee (intelligence?), thinking it was for my normal job and signage projects. Again I was drugged making it impossible to think clearly, and a witness politician Nel Veder-Smit voted against all and made sure the total committee knew I was drugged, and thought I was there for a big signage project. Probably they did all this to make sure I would never be able to proof my case when my memory would come back. And psychiatrist Onno van der Hart knew, my memory would come back one day, as it always does. By keeping everyone from telling me and having all proof deleted or manipulated, I would mentally break and get even more severe PTSS. Making even surer I would never succeed in proving this.
6. My wife still thinks I am insane, although she has a double of emotional personality and can be still abused at will, without her being able to warn anyone afterwards in her normal personality.
7. But psychiatrists refuse to treat her, stating I am insane! Even trying to have me treated by force in a mental institution!
8. So the aim must be to cover up all wrong decisions and in fact criminal acts being a violation of most of the Human Rights.
9. I am denied the right to file charges against any rapist or abusers, but the rapist are allowed to complain and so I am already sentenced without even having a lawyer present!
10. No lawyers are willing or allowed(?) to legally help me. I asked hundreds (from January 2004) to no avail.
11. Probably the Queen was asked to sign a special ruling, and this fact could be a big reason for the cover up.

In the Dutch book 'Fighting the unknown' part 1 – Scrupulous betrayal, everything is written in detail. The part 2 – Impossible Flashbacks is ready but needs editing. Part 3 will take two or three months to finish. The book is in fact both my Diary and Autobiography.

General summary, only the most important items:

1. My girlfriend in 1972 got severely abused and raped during whole 1972 after being drugged with memory blocking stuff. Later as the drug was too expensive she was tortured to be a sex slave and developed (on purpose) a double or emotional personality. She would normally be Person 1 and after some force, or simply being with her 'master' became the second Person 2. Afterwards getting normal again. When she was with me, she was normal and so myself and her family didn't know this at first.

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

2. I, Hans Smedema as her boyfriend in 1971/72, was in the way of the abuser and homeowner Jan van Beek to much and drugged also, causing me to get severe suppression for everything involved with her abuse and rape. So I didn't know anything about these abuses and in fact rape of her. Although being drugged with a memory loss forcing drug, I did know something as turned out much later when my memory started coming back slowly in March 2000.
3. The perpetrator Jan van Beek now had a girl who he could let do anything he wanted and after being fired (stealing to much drugs) he had her 'work(sex)' for him to earn him an income. He found out that making rapemovies (and even worse, follow the money) was very lucrative. The rapemovies were also sold to the USA. They were made in 1972, 1973 1974 and 1978/9, maybe in between also. To prevent her from getting pregnant, he put a broken coil in her womb.
4. Only at the end of 1972 or beginning of 1973 the family discovered that something was wrong with their daughter and asked me if I knew. I didn't but fainted, as my subconscious (causing the selective amnesia and suppression) did know! So the Family with physicians and the Justice department decided to cover all up, as we both denied to know anything and suppressed all instantly with selective amnesia. We married without being told my wife could be raped at will without knowing afterwards! So she never could file charges or fight against it. And I was unable to fight the criminals also with my instant suppression.
5. This of course made her even more helpless and defenseless against even more criminals and rapist, who heard this from other criminals and family members. We still were not to know and the fact my wife could be raped at will was not(!) a reason for our Family, Physicians or Justice department to give us a simple psychiatric treatment! For me this could have been done in weeks, for my wife with severe dissociation longer. On the contrary, a scrupulous psychiatrist Onno van der Hart was asked to make sure my wife and later I were not treated and kept unaware of all rape and abuses.
6. Rapist Jan van Beek knew I didn't know anything about my wife being raped and suppressing instantly, and still was the 'master' of my wife. So he phoned my wife two or three days after being married and she was commanded by him to tell me she had to work at the Rabo Bank for some weeks. The job she had before we married, but was cancelled by her earlier. She 'worked' almost two weeks, being forced to having sex with men, before her mother found out and with the Police rescued her again. Her parents together with Police brought her home, without telling me what happened. No warning to look after her, no warning to put camera's in place, no warning to keep everything locked, no warning of the neighbors, no medical treatment, still nothing to help or aid us! Reason unknown, but must be lies from psychiatrist Onno van der Hart and fear of the criminal acts coming out in the news.
7. Rapist and 'master' of my wife Jan van Beek, had sex with my wife a lot, after contacting her and because she would follow up all his commands. She told him when I was away and he would have sex with her a lot. A physician found the coil in her womb and took it away, leaving us wondering who put it there, as she used pills for birth control! We both didn't know about the abuse and cover up.
8. In 1974 rapist Jan van Beek drugged us in our own home and made a rapemovie from her again. Neighbors heard her scream and warned the Police, who came and followed the criminals, but the movie or video was already gone. As we were not to know(!), they covered all up and didn't tell or warn us! So the rape went on and on of course.
9. She got six pregnancies and three children from abusers, while we still thought I was the father! My wife still thinks because of the cover up and conspiracy that I am the father of all three children, making my life and hers a torture. She now even wants to divorce me, based on the conspiracy and betrayal of all involved.
10. Somebody tried to murder me in 1975 in Motel Bunnik near the town Zeist, just after our first child, and when they discovered I was made infertile. A witness warned the Police, but I was gone, as were the criminals. The glass contained a drug that could make your memory fail and could cause a heart attack was in newspaper 'The Telegraaf'.
11. In 1975 when the child turned out not to be mine and the murder attempt failed, psychiatrist Onno van der Hart was asked to treat me and make sure he got a signed document from me, probably stating I gave him all the rights to act for me and over me when my wife was involved. As I refused he drugged me twice with a memory blocking drug and tortured me with stuff about my wife and the trauma he knew I had. A colleague made sure she saw all and went to the Police, but with my amnesia I was unable to proof her story. Together with more colleagues they filed a complaint, knowing it was very bad for both of us, with the board of the GGZ (Dutch Health organization) but it was denied.

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

12. In the end of 1975 or 1976 my brothers lured me into a political commission thinking it was for my job and a signage project. Again they secretly gave me a drink with a memory blocking drug, so I would afterwards not know what happened and could not fight what was discussed. Warned by my mother in law, a woman politician Nel Veder-Smit, tried to stop them and made sure all knew I was unaware of all that happened and thought I was there for my job. Also she made sure all members knew I was drugged, but she was outvoted.
13. Probably the Queen had to sign a special ruling to make all this cover up and abnormal behavior from the Justice department possible.
14. In 1980 they(who?) made two attempts to kill me again without success, but succeeded in the last one, to murder my Neighbor Cees van 't Hoog, who did some investigating working for a Newspaper in the town Zwolle. Nobody suspected anything and they thought he had a heart attack. He came to close according to rapist Jan van Beek who in 1978 told me everything what happened from December 1971 until 1978 or so. Jan told me some people from Intelligence did it!
15. In 1983 or so I did business with the 97th General Army Hospital in Frankfurt Germany and the Captain Al Rust found out that I knew nothing(amnesia and suppression) about a BIG Dutch Intelligence file about me. Intelligence made a copy, but the Dutch deleted the electronic file almost instantly. I was unofficially outside the gate interrogated. Al Rust, his manager Logistics and two men from Intelligence were present. Most of the time Klaus Maurers an employee of my German Company(50% mine and 50% my brothers) was present also. They asked if I knew that the three children were not mine, about the fact this psychiatrist Onno van der Hart had treated me, we both were involved in porn movies, Police was involved in 1972 and later, and they found out I instantly suppressed all they told me! So proof of my amnesia and severe suppression. To bad this was unofficial to be able to give the contract for signage for the Hospital as they needed it badly and this big file and problems were not foreseen. I had told them I had nothing to do with Police or Justice of course.
16. When applying in 1986 for CEO of a Dutch Company, daughter of Baker Brothers in Stoughton, near Boston, Massachusetts, and entering around June 1st the USA in New York, I was interrogated because of the questions and remarks in the Intelligence System of Immigration put there by Al Rust. He had become employee of Military Intelligence because of his interest in my bizarre and cruel case. He then lived near Chicago and just kept an eye out for me.
17. I only got the position of CEO in the Netherlands because Al Rust made sure the company knew that I, Hans Smedema, was the victim, not the criminal involved in porn. They were warned by the CIA for me. But when my wife had unwillingly sex with an employee because of the cover up and conspiracy of the Dutch state, I was fired and Baker Brothers had to pay 80.000 guilders damages. During the verbal court session (Number 337/87) a CEO from Baker Brothers showed the three judges a letter from the CIA about me having been involved with porn movies. The Judge knew I had amnesia and was a victim! So a lot must know exactly what happened to me, but still keep silent until this very day! In the verdict they left out all crucial stuff about the cover up!
18. So Baker Brothers sued Al Rust for giving wrong and bad information (which was not true) and the state, people or Military took over the case. The scrupulous Dutch state and/or Justice department were of course asked by Al Rust and his specialist lawyer, but refused to tell the truth and simply free and proof the case of the innocent Al Rust. Al Rust could not proof his case from jail and had to sell his house and needed help from his wife's parents in Harlingen, Texas.
19. On the January 12th 1991 when I was at a Commercial Club in Leeuwarden, Netherlands, my wife got raped by two men. Rotary friends from Leeuwarden-Zuid(South) noticed and another Rotary friend mr. Ruud Rosingh who by luck was the head prosecutor started an investigation after they found out me and my wife both didn't know anything afterwards about this rape by two men. Proving the amnesia and severe suppression. He was instantly called to go to the highest Dutch College, the College Procureurs Generaal in the Hague, and was ordered to stop the investigation. So the rapist went free, as always because of the conspiracy and refusal to investigate or prosecute any abuser or rapist from 1973 onwards. These sex abuses had happened much more before of course. Still no medical help, or legal help, nothing at all for both of us. We still knew nothing at all and were helpless and defenseless.
20. A journalist from Rotary made a critical article and it was published in the Leeuwarder Courant, but immediately the publisher had to make a fake article and this paper was printed at night, with almost nobody present. I heard it was from the Justice department and they appealed on the state security as a reason! This could only be true if the Queen and high level officials were involved in this conspiracy.

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

21. In the mean time Al Rust survived in Harlingen Texas and became manager of Sears(or something close) and was able to meet a high level politician in 1996 who helped him. In that time ambassador Paul Bremer in the Netherlands was asked to check his statement and talked to me on June 14th 1996 in the Great Industrial Club in Amsterdam at 18.30. A man named Floris Kappelle(card still available) made the special arrangement with me without me knowing it was to meet Paul Bremer secretly! Paul Bremer found out I still knew nothing and instantly forgot things he said about the abuse of my wife. Proving all Al Rust had told about me. Paul Bremer warned me America would have to legally help the Dutch when asked to. Only asking for political Asylum and becoming American would protect me. So Al Rust could get the copy of the Dutch deleted file from the 97th General Army Hospital Frankfurt Germany and now quickly reopened his case. He now won his case and the files were destroyed in 1996 or 97. He was paid his full salary for almost all the years and bought a brick house in Rangerville west near Harlingen in Texas. He told me it was front page news and when he went to church suddenly people who never paid any attention, now greeted him.
22. His daughter Zoicite went in 1998 or 1999 to the Netherlands on a Rotary exchange from Harlingen Highschool to Drachten Netherlands where she knew Hans Smedema lived. But when she tried to warn and talk to the Dutch Rotary members about what had happened to her family and Al Rust because of the amnesia and severe suppression of Hans Smedema, she was not believed and left very angry the Netherlands after six weeks or so, when normally it would take almost a full year. She talked to me at the door, but with my amnesia I didn't understand it then. But with her help and from another witness Elise Boers, see below, my memory at last came back in March 2000. In that time Al Rust left Texas and Harlingen for the south of Florida.
23. An employee Elise Boers of my brother mr. Johan Smedema warned me in 1999 for him. Telling and warning me my brother betrayed me by working together with the Justice department and a secret service to keep the cover up going and making sure all proof of this conspiracy was manipulated or deleted. So when my memory came back, I could never proof my case. She told me my children were not mine also. And until now she was right, as was Al Rust who also warned me to come to the USA and ask for Political Asylum and first become American. Only after being an American I could get help and be protected from the Dutch state and the conspiracy against me and my poor wife.
24. My memory came slowly back in March 2000, but because of the conspiracy and cover up, all denied. So I thought I was getting insane and psychiatrist even declared me paranoid or schizophrenic. But it looks as if they know about my wife, so only betray me. A test from the University of Groningen confirmed I was over average intelligent, not paranoid, not schizophrenic at all, but maybe having 'Delusional Disorder' DSM IV if(!) what I told them was not true. But some did tell me I was right, but were not willing to state it openly.
25. Police refused to take my filing in April 2000 and even better with much more information in April 2004, for the crimes, probably because it was not allowed by the Justice Department. All normal organizations refused to investigate or help me. A Sanitary Cordon was put up around me, making sure I stood completely alone.
26. And from January 2004 until now, NO lawyer was willing to help me with this big case. I asked and pleaded with hundreds, but to no avail. After hearing how complex this is they probably think he is insane and refuse the case. But by doing so making any defense impossible. The cover up is making hard proof impossible. Even forcing a lawyer did not help. He stated he did not believe me and wanted more proof, which is impossible with the state conspiracy against me. Completely against all Human Rights, as is all that happened and still is happening to us.
27. No politicians are willing to grant me an appointment and all refuse to help me out. And this is crucial while this cover up and conspiracy is politically approved.
28. I filed a complaint with the European Court of Human Rights in 2006, but they denied me the right to do so, stating I had not used all legal possibilities! But without a lawyer(they refuse!), and the conspiracy in full force, that is impossible for me. And without enough money it is also impossible to get enough proof, while the state uses millions to make sure I will not succeed by proving anything.
29. In 2008 I filed a complaint with the Review Committee on the Intelligence and Security Services(CTIVD), and got a hearing. Without any lawyer I could talk to this Judge and she told me she was a personal friend of the old ambassador Paul Bremer. Between the lines she told me I was right on and the victim of a scrupulous conspiracy from the Dutch state itself. She told me also it was all a violation of Human Rights. She told me she could only advise but the politicians and Ministry of Internal affairs could refuse to stop this conspiracy. And they did deny everything a bit later.
30. In 2007 I started my Blog and in December of 2007 I got so angry by the continued cover up, I named some rapist and fathers of the children, and Family members by name.

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

31. In 2008 I was ordered to appear before the Police on March 21 2008, but not much was told. I could not get a copy of the statement and I again asked several lawyers to assist me, but nobody was willing! Maybe they were not allowed or maybe thought I was insane as the cover up tried to make sure.
32. Only on January the 7th 2009 I found out that I had to appear before a Police Judge on the 9th of February 2009, still not knowing what was the reason and what was investigated about all the documents I gave the Police detective Bolier in Drachten. But with the summon two lawyers were willing to assist only with the case of libel, slander and insult, not(!) with the cause(!) of everything, the big case of the conspiracy. One had to stop after a week because my wife was a complainant, and another was only interested in his money and refused to help without it. Only on January 20th we got the police file! In the one week left, (prosecutor had almost a full year!) I was unable to get enough funding and was put before the Dutch Police Judge without any lawyer present! I was not allowed to have more time and finding a good lawyer with a so complex case, was not allowed to plead my case, could not hear several witnesses I put in writing in time, have an thorough investigation about the DNA test of one of the complainants and in fact rapist, with lots of witnesses and more. When I thought it was going to start, I already was sentenced to 50 hours of service and three months conditionally, and pay 1500 euro to a rapist, and others and 2350 euro to the criminal who raped my wife for a year around 1979 and who is the father of our youngest child. Without(!) legal help and with all investigations forbidden, anyone is defenseless in the Netherlands.
33. But with this info a famous lawyer mr. Bram Moszkowicz told me he would help me with an appeal with a higher court. But after a week or two, three, no communication between him and me happens anymore. And an appointment with his brother Max Moszkowicz to start a claim of two million or more against the Dutch state, was suddenly cancelled hours before we would meet. He would make a new appointment, but no further appointment is made, and even e-mailing and asking what happened, doesn't give a reply anymore. So the cover up or conspiracy must have commanded him to stop helping me, probably again using the state security (Queen?) as a reason?
34. This all had me earlier deciding to ask for political asylum in the USA. I will never get an honest trial by any court in the Netherlands, while the secret service is secretly making all proof disappearing with millions of taxpayers money. No media were ever interested in this story, only a minor article about me being sentenced, but without any name, or even initials and not telling the Dutch people about me not having a lawyer present, no witnesses possible, no investigation possible, no pleading, nothing. So deliberate attempt to keep the Dutch people unknown of this bizarre crime against two innocent victims.

Examples of manipulating or falsifying of proof:

1. A DNA test September 29th 2003 with GeneTree in the USA with samples from the three children and my wife and myself, turned out to proof(!) me being the father. While Al Rust his manager Logistics in Frankfurt stated the three children were not mine. Also Elise Boers did read in the secret files at my brother Johan Smedema, that the three children were not mine. They don't look mine at all also and have a completely different character. And on top of that all three fathers have stated, they probably must be the fathers. Jan van Beek, Jan de Vries and Rieks Perdok. This must certainly be true when I was indeed made infertile as two urologists told me. And many more point, see below.
2. A surgeon mr. Hermsen from Hospital Nij Smellinghe in Drachten asked me how I got this badly stitched scar right between my legs, and told me it could not be from birth, as he could see it must have been at a mature age. And now I know from the flashbacks it was made by Jan van Beek in 1972, to make sure I could never get any children, and he instead could have children with my girlfriend, later wife.
3. But later September 18th 2003 when I asked about this scar, another surgeon, mr Van Looyen from the same hospital, suddenly called it normal skin damage which every men had! Just before I had it removed bij burning. He in fact directed me to the Dermatologist. Although all men have an embryonic something sometimes visible a bit, but never looking like a badly stitched scar from an experienced surgeon. But mine even had to be removed (burned) because with aging a scar(!) becomes harder and it started bleeding when walking a lot in hot weather. See the evidence on page ...
4. When in November 3th 2005 I had this scar burned away, the dermatologist De Groot from the same hospital had a police photographer make secretly(!) a photo from it before. He put something before my eyes and stated I could better not see this? Afterwards nobody was willing to state it was a scar, and proving outside manipulation with me. See evidence page ...
5. An Urologist Smorenburg investigated me January 19th 2006 and stated in writing both my funicles had a gap at an unusual place at the testicles itself. He suggested an invasive investigation to proof this, but later suddenly refused

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

to investigate anything anymore. Probably because now the conspiracy knew about this being done, and commanded him not(!) to investigate anything anymore. He did test my sperm and they stated there were enough cells in it. But if they could 'swim', was not tested and I know the conspiracy can have the outcome manipulated like they did with all other attempts to proof my case. See the evidence on page ...

6. So I asked for a MRI scan at DiaSana in Mill and talked to radiologist Frank Kemper. Yes the scar would be visible and the 'gaps' in both funicles also. He insisted to do this by himself, but after arriving on May 17th 2006, he suddenly(!) had to leave just before me being the last one(!), as was the assistant who was changed for someone else and an old man not belonging in the computer room, watched over everybody. He stated weeks later that nothing was visible, but at least the scar should have been visible, as the gap in both funicles. So probably the state has hired the MRI scan and made sure radiologist Frank Kemper was shown a fake scan from somebody with normal working genitals. See the evidence on page ...
7. When I first met my new home physician mr Lefering in 1978, he mentioned a secret letter telling him about the children not being mine, and that the Rabo Bank Health insurance, where she worked in 1972 when all happened, would pay for all costs involving my wife. But later of course he denied everything, telling he forgot.
8. But in the old card file from 1975(physician Hogen Esch) was the fact(!) that I went to Zeist and on the way back had to have a cardio investigation for my heart. This is in fact confirming the murder attempt on me in that year. See evidence page ...
9. In 1979 my brother Marinus and Joop de Boer after being warned by my daughter Ilse and secretary Stella van Arkel, caught rapist Rieks Perdok in top of my wife and knocked him of the stairs. This caused a blood trail on the wall. Told the Police, but they are not interested!
10. Also this group knew I was made infertile and the children were not mine, but in 1980 she got pregnant from a neighbor Jaap D. being asked by family to look after my defenseless wife! But we were not warned and until now the Police and Justice department deny my case. But they should have charged the rapist knowing it could not have been mine but only from an abuser. Where are the files and investigations? This man Jaap D. now charged me and I was sentenced to pay him 1500 euro! Also I have to do service or 28 days in prison. And 3 months conditional prison! To the rapist, who can be proved guilty easily. One, Rieks Perdok is/must be the father of the youngest son Jorrit.
11. The critical article in the newspaper Leeuwarder Courant February 1991 about my Rotary friend mr. Ruud Rosingh having to stop the investigation for the rape of my defenseless wife by two men with two witnesses at the Oranje Hotel in Leeuwarden, was later specially faked and put in the archives, knowing I would look for it after my memory would come back. They hired the printing press at high cost and a lot of extra work. They appealed for the state security being involved. But we have nothing to do with the security of the state ourselves. So only the cover up itself and maybe the special ruling by the Queen can be the real reason.
12. In both April 2000 and more to the point in April 2004 I tried to file charges with the Police, but they denied me the right! No investigation was, done, stating that is to bizarre and unbelievable. But a simple DNA test could have proven my story for a big part. And all the fathers were known by that second time and a lot of witnesses.
13. No lawyers are willing or allowed to help me legally. In January 2004 I got 80-100% incapacitated from all the denials and had to live from an insurance payment. When asking for help from lawyers nobody was willing to help. Most had no time(!), which is impossible for 5 years now, others never worked for victims, and some told me it was to complex and difficult. Even forcing one, didn't work out. Going to two higher courts (Raad and Hof of Discipline, to get a lawyer, didn't work either. And until this very day no lawyer is willing to help. Probably because they are not allowed to help, being forced by the appeal for the state security.
14. Police should be able to find the many files from some of the abuses, and specific the murder attempt on me in Zeist in 1975. Also around 1983 during the interrogation outside the gate of the 97th General Army Hospital Germany, the manager logistics mentioned the fact that there were police files about me and they were involved in 1972 when my wife was with this rapist Jan van Beek. I got a guy from intelligence from the Hospital earlier asking questions also and asking about me and my girlfriend being involved with the police also. So somebody is deleting those files, or they keep them hidden from me. The files intelligence saw in 1983 were deleted almost instantly also.
15. Mr. A. Moszkowicz a famous lawyer took my case after I talked to Audrey Wollfs, but suddenly they stop communicating at all! This must be the fact they are not allowed to give me legal aid. I must have been put outside the normal Dutch rights and Human International Rights.

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

16. When making a clients organization for help several times, once an American woman named Diana, was astonished to hear my story about nobody helping out and she was willing to help me. But when phoning her next week, she was not allowed to help me and pointed to a man sitting opposite her as the reason she could not help! Al most sure somebody from intelligence?
17. After being pointed by the Ministry of Internal affairs to the possibility of asking the National Ombudsman to investigate this case, this organization refuses to investigate, stating it is beyond their official powers. But two weeks later did the same for mr de Roy van Zuydenwijn! And after being pointed by the Ministry itself, that it could be done!

Examples of Cruel, Inhuman or Degrading Treatment or Punishment:

1. **Conspiracy itself.** 1972 – now! The Dutch state has put up a cover up and/or conspiracy to keep applicant Hans Smedema from getting to know, what happened to him and his wife from 1972 until now. The state refuses to stop with this inhuman and degrading treatment. Physicians are ordered to lie about all proof like for instance a DNA test at GenenTree USA, which was falsified and proved(wrong!) the three children were mine. A badly stitched scar from secretly and illegally being made infertile in 1972 is suddenly normal skin damage in 2003. A MRI scan in 2006 to proof the scar and gap in the funicles, was falsified. When the scar with aging had to be removed, a police photographer secretly made a photo. Witnesses have to lie and deny everything what happened, etc. I am being looked at as a lunatic because of that and have to proof everything I say. No lawyers believe me anymore, making me having to try and convince them, knowing it is all a big conspiracy from a Orwellian brother mr. Johan Smedema from Gennep together with the Dutch state and others. And all proof in the mean time is manipulated or falsified by the Dutch state. Even my own wife thinks I am insane. Lots of people on the internet tell me I am insane because they think the Dutch state would never do such a thing. My income went back from 140.000 euro to 56.000 euro. And of cause with much higher costs to proof things which in fact are known to the secret group behind this! So why should I proof things again, which the state itself is manipulating with millions of taxpayers' money? And who are not allowed to know these facts?
2. **Trauma's for over 30 years!** Because of the conspiracy to keep all crimes covered up and not to prosecute any criminals, we both were helpless and defenseless against all abusers and rapist of my wife. The trauma's kept repeating and repeating of course, as nobody acted against it by having us treated. That was the reason it took so long for my memory to come back and the fact my wife still doesn't know! It is all still very traumatic and she can still be abused and still is commanded by her 'masters'. One 'master', a neighbor who abused her for 30 years, filed a complaint against me with the police and has my own(!) wife charging me. She still doesn't know, that this neighbor Jaap D. is her abuser and legally seen, rapist! The Stockholm principle makes her his mental slave. And without help, and because of this conspiracy still going on, I can't help my own wife! She even goes to his birthday parties leaving me behind as being insane.
3. **Children from rapist.** The three children are not mine like my wife thinks and is told because of the conspiracy, but from three different rapist. And three other pregnancies did not result in children born. One of them was secretly put away by Jan van Beek in 1972, one secretly by her sister Klazien in 1976 and one by herself in 1980 after getting pregnant from her neighbor Jaap D. Nobody told us I was made infertile and we could never get children from our own. So every pregnancy would always come from an abuser or legally seen a rapist. And the State and police knew this, but never investigated her pregnancies!
4. **Sex slave.** My wife being made a sex slave in 1972 was never told to me or my poor helpless and defenseless wife herself! So lots of rape movies and more must have been made and could still be around as old illegal porn movies. They even used animals. Follow the money. With her double or emotional personality she doesn't understand what is happening to her. She thinks I am insane and cries a lot. Sometimes I have to hear her cry softly all night! These are personality changing circumstances, but nobody is willing to tell us the truth so we can start to forget.
5. **Being seen as insane.** My own wife thinks I am insane and tells everybody. So I get isolated and have to fight for my legal rights. Lawyers refuse to help me legally as they are not allowed to help people who are insane. This makes it necessary for me first to proof I am right and not insane. But the Dutch state makes sure I will never

succeed doing so, by manipulating all I try to prove. Police doesn't take anything I said serious and after that it was impossible to talk to them. They deny me the right to file charges against rapist and abusers. They only talk to my wife now! Although I am the one with most knowledge! This is causing us heavy extra costs on top of already less income. And being incapacitated with PTSS doesn't make it easy to prove anything. Going to a psychiatrist doesn't help, they only declare me insane again. I stopped going to and talking to psychiatrists. So my PTSS is not treated and getting worse and worse because of all denials and the Orwellian conspiracy! I am starting to react much to angry. They try to mentally break me on purpose.

6. **High extra costs.** Trying to prove my case is costing us lots of money. But fighting for peace of mind for both of us, I must keep trying. Total costs for lawyers alone is around 25.000 euro now. Writing the book, editing and printing, another 10.000 euro. Less income after 2003, makes for a 100.000 a year, or until 2009 a 500.000 euro. Extra cost for travelling to talk to lawyers without getting any legal help, and specific to Harlingen, Texas to try and find out about Al Rust who lived there, makes for another 10.000 euro I think. Not counting lost hours trying to figure out what happened and the torture we both feel since March 2000 when my memory came slowly back. And how to value having children from rapist?
7. **Publishing.** To make sure I will win this battle against the scrupulous Dutch state, I publish my diary in a Dutch (Google 'Vechten tegen het onbekende') and English Blog (Google 'Fighting the unknown') and write down all I find out about this conspiracy. To make sure this will never happen again, and to help other innocent girls. What happened to us is very new and unknown yet. So people should learn from our story. But the scrupulous Dutch behind this conspiracy make sure nobody will ever learn from my story, until now. How many other victims that could have been saved? But as everybody thinks I am insane, this publishing makes my life and that of my poor wife almost impossible. Nobody dares to help me anymore and all try to keep away from us. The rapist now could easily charge me of accusing them, while the Dutch State keeps helping them and refusing to help me/us.
8. **Being sentenced without a lawyer present!** On February 9th 2009 I was sentenced without being allowed to defend myself with a lawyer. In the three weeks before we knew I was summoned, it was impossible to find a lawyer who could defend me, and had enough time to fully understand why this Blog of mine had to be published! Such a complex case can't be explained easily. And this case must undoubtedly be the most easily proven case ever in mankind? With three children not mine and a scar of being made infertile in 1972, this case can be solved by any child above 7 years? That is, if outside the influence of the Dutch state or group behind this conspiracy. Nobody is allowed to help me, or us.
9. **Pay taxes.** We have to pay taxes, but the same State has made sure my income went down almost 70%. Also we now have to prove things that are known already by the state (secret now), but proving it is costing us all our savings and much more. One could ask if this is moral just or ethical?
10. **Divorce?** My wife and me are being betrayed so badly, we start fighting each other. No marriage can stay pure and ethical, when both are lied to. Trust between each other is necessary for a great marriage, but trust has been made impossible under these circumstances. Live is a constant hell now, although we both would like to grow old together and still feel we belong with each other.

When talking to my friend Al Rust he told me earlier I should have to become American first to be protected by the constitution and be able to get help. Old ambassador Paul Bremer also told me; they would even have to help the Dutch because this conspiracy is made legal by the politicians! All is based on fraud and betrayal, and after being drugged, so how can such a thing be legal? And why is the Queen involved? She could easily stop this scrupulous cover up making both our lives a constant torture. On June 14th 1996 in Amsterdam Paul Bremer told me I should ask for Political Asylum and they would take good care of me, as Al Rust and more suffered also from this unethical and criminal behavior.

Unprecedented!

1. Never in known history has a couple been abused and raped so severe they both got suppression and selective amnesia for over 28 years! The wife still not believing it.
2. Never in history has a wife been abused and raped, get three children from abusers and NOT knowing it herself! She still denies it as impossible! She has never been raped and had only sex with me her husband.
3. Never in known history has a family betrayed their own brother and sister so severe and scrupulous, and consistently, that even after they found out, they chose to have the husband be diagnosed as insane just for their own(!) sake.
4. Never before in known history has the Dutch State and government allowed two innocent victims, a couple deeply in love, to be raped, abused, betrayed and mistreated for over 28 years and even beyond that until this very day. Have him declared insane. Not to save the victims, but to save some high placed person.
5. Never in history were the victims of abuse and rape for over 28 years, not allowed to file charges with the Police, telling them it is too unbelievable, while the Justice Department itself knows about all of it!
6. When the wife became unwillingly pregnant, just after having a child, they didn't investigate who was the rapist. Although they knew that it could not be from me her husband and applicant for political asylum Hans Smedema. Now is it too late to proof the rape anymore and Hans Smedema has to pay the rapist of his wife damages, without even a lawyer present.
7. Very unusual is the fact that even lawyers are not allowed to help the victims, although International Human Rights and normal ethics demand that. Most of them don't believe the story, because it is to unbelievable.
8. Very rare also is the fact that this secret criminal organization lets the husband be sentenced to pay the rapist and have him put in prison, knowing (other departments?) he is innocent.
9. Never in Dutch history has a famous lawyer mr. A.(Bram) Moszkowicz suddenly stopped all communication with a paying client(10.000 euro!) without any explanation at all. Not even after being warned his client would ask for Political Asylum in the USA in days! This lawyer could be on TV any time he wants to and make this hole cover up and conspiracy publicly known! But he chooses for being silent! Probably by an appeal on the state security. Could be he wishes me to ask for political asylum.

So I am asking and looking for:

1. Political Asylum and protection against the Dutch State or group behind this, trying to make sure I will never be able to proof I am not insane or get a lawyer helping me/us.
2. A good international lawyer who can start my claim against the Dutch state. Probably over 2 million euro.
3. Help to become American citizen as soon as possible! Al Rust told me sometimes it is possible to become American in three months and with my knowledge we could try that, he said.
4. Help trying to find Al Rust and/or his family.
5. Help with tests proving my case, like DNA tests NOT being falsified by the Dutch or on Dutch command.
6. Test proving the scar from making me infertile, being not(!) normal skin damage, and the gaps in my funicles.
7. After more proof, having my wife come to the USA for treatment against dissociation and an extra emotional personality.
8. A publisher for my book and later film.

Question: 4 Afraid of being subjected to torture(mistreatment in my case) in my home country or other country.

Yes! Below a bit more information on this.

1. I know now from April 2000 after my memory came back and I tried to talk to the Dutch Police, that this big cover up is going to continue for ever. Normal civil rights are taken away from me and a secret organization makes decisions over and for me and my still defenseless wife. This was organized by our own family together with officials inside the justice department, who all deny these facts. She can't get any medical treatment unless the truth comes out and if I try someone, they declare me(!) insane and even threaten to force me into a mental hospital.
2. In 1975 and twice in 1980 they tried to murder me, and succeeded secretly murdering my Neighbor Cees van 't Hoog, Zudendorpweg 3, 't Harde, Netherlands. Everybody thinks he had a heart attack, but he was secretly drugged according to Jan van Beek. Jan van Beek was the guy who started all this. Not sure if they still could murder me or others involved. Not sure if this secret governmental organization is legal, or part legal? Witness Elise Boers saw the files and warned me that my brother mr. Johan Smedema did all this together with the Justice department itself.
3. No normal live is possible for me/us in the Netherlands anymore.
4. This secret criminal(?) organization doesn't want their actions and misbehavior to come out in into the open. Probably protecting high level officials. Even the Queen could have been involved with a special ruling on request.
5. Not being able to get legal assistance against this secret organization makes live in the Netherlands impossible for me and us. For instance our now empty house has been deliberately soiled with paint for 9 times and Police are not allowed to put cameras on the site from higher levels. This makes it impossible for us to sell the house. It was sold in april 2008 for 580.000 euro, but strange enough the buyer didn't pay up and kept us waiting until December 2008. This must have been the secret organization also, making sure we will not get money out of selling the house. Nobody will buy a house which is being soiled on purpose with paint nine times now. This is very rare in the Netherlands. I can't proof this of cause, like all other things, but we are being betrayed by our own government.
6. Not being able to file charges with the Police and being laughed at as an insane person makes normal live impossible. My wife has to go to the Police, but with her amnesia and suppression, she doesn't tell them all I know. Police doesn't talk to me.
7. In the other questions I already mentioned the fact that mr Ruud Rosing had to stop his investigation after the rape by two men off my wife on January 12th 1991 in Oranje Hotel Leeuwarden. With two witnesses, but no investigation, and no warning of us at all. And this is still the same cover up now!
8. Media also keep silent about all what happens to me/us.
9. I tried to get a lawyer from January 2004 but never succeeded.
10. I was sentenced on Feruary 9th 2009 without a lawyer present! No bloodtest. No DNA father shiptest done. No witnesses asked. No investigation. Nothing at all done to proof my innocence, although very easy with children from abusers and one charging me. No lawyers taking the case, or have enough time. So I had no chance.
11. The appeal for a higher court on September 4th 2009 in Leeuwarden would be done by famous lawyer mr A. (Bram) Moszkowicz, but after a few e-mails and one talk (1,5 hour)to his (assistant) lawyer Audrey Wollfs, no normal communication is possible. Not even after stating I was going for Political Asylum in the USA. This is very rare also and must mean he is not allowed to help us with an appeal on the state security, and does the only thing left for him, do nothing at all. So I will not have an honest chance at the appeal also with the state secretly falsifying and manipulating the evidence.

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

12. An article in a Dutch paper didn't tell the full story about me being sentenced without a lawyer present, and with no right on witnesses, or any investigation.
13. No medical investigation is possible in the Netherlands, a scar is suddenly normal embryonic skin damage, MRI scan falsified, DNA tests also and an Urologist Smorenburg is not allowed to do an invasive surgery to proof me being made infertile in 1972. DNA tests are impossible in the Netherlands under these circumstances. All police and Justice Department files about us, are being deleted or kept silent. Even after my American friend Al Rust asked for the truth in 1987! He suffered also badly for 10 years!
14. This means the secret organization is still operating and doing all it can, to make sure I will never be able to proof my case, and make sure we will not get enough money to defend ourselves. Medical treatment will not be correct. I was treated for paranoia and more from April 2000 until end of 2003, without success of course when only my memory came back. I still was able to reconstruct my complete life. And I am no insane at all, but will have to proof that.
15. My wife still thinks I am insane and cries a lot. She doesn't understand what is happening to us and in fact tries to do everything she can to stop me! Part of having a double or emotional personality, dissociation, is trying to do all she can to prevent thinking about her past. So very strange and inhuman not to tell me about this and together try to help her as best we all can. Instead they declare me insane. This is inhuman and against all International Human Rights! We suffer both enormously and our marriage is of course breaking down. The necessary trust between each other is gone. This will only continue when I would stay in the Netherlands.
16. Old ambassador Paul Bremer, told me on June 14th 1996 in Amsterdam that I should ask for Political Asylum and that they would take good care of me. Not sure if that is still the case now of course. Problem is those earlier files were not to be used for anything else than deciding to do business with those Dutch companies I believe. Although the complete cover up is based on false statements, drugging of people and fraud.

How can I live in a country that:

- 1.
2. Gives our families the right to decide secretly over and for us in 1973 and beyond, until now. Without ever making sure we would be treated well and keep some civil rights? And without making an exit strategy?
3. Denied us the right to medical care for our amnesia and severe suppression from 1972 until now?
4. Refuses to tell me what happened in 1972 and beyond, until now?
5. Refuses to let me file charges in April 2000 and April 2004, which every normal Dutch person has the right to do?
6. Denies me the civil right to know what decisions were taken by the government against/for us!
7. Declare me insane, without any investigation, without hearing any witnesses, or having DNA tests done?
8. Has physicians lie to me about a scar being normal skin damage?
9. Has a psychiatrist drug me in 1975 and make me sign documents which gave away all my normal civil rights? Without telling me then and never tell me that crucial fact when my memory came back in March 2000?
10. Lets me be declared insane, take wrong medicine, while knowing I was only getting my memory back?
11. Lets my wife almost divorce me, thinking I am insane?
12. Lets my wife get three children from rapist, without ever warning us or tell her about it?
13. Never prosecuted these rapist?
14. Lets my wife think the children are mine, knowing I was made infertile in 1972!
15. Has an MRI scan falsified?
16. Has a prosecutor, who had witnesses of rape by two men of my wife, immediately stop an investigation?
17. Has a file instantly removed when intelligence from the 97th General Army Hospital investigates the Dutch file of Hans Smedema?
18. In the process not giving the innocent Al Rust, who only told the truth about Hans Smedema and helped him, the information he needed to get free from jail and keep his job?
19. Maybe has a Queen who signs special rulings, which make the lives of innocent victims like Hans Smedema and his defenseless wife a living hell? And NOT help them afterwards?
20. Makes sure no lawyer is allowed to give Hans Smedema or his wife legal assistance? Against all human rights?
21. Makes sure no media coverage is allowed?
22. Makes sure no investigation and no lawyer is available to Hans Smedema, causing him to be sentenced to jail and even pay(!) the rapist of his wife?

Asylum Hans Smedema, born March 27th 1948, Leeuwarden, Netherlands

23. Where all politicians refuse even to talk to Hans Smedema? Even after having been member of political party VVD for 30 years?
24. Where 3 judges mr Holst, Van der Meer en van der Vinne know about Hans en his wife having amnesia, see a letter from the CIA to Baker Brothers USA and still don't act to help Hans and his wife. They are not even asked by the Justice Department! As mr Ruud Rosingh head prosecutor who knows a lot about this case, but is never asked. They must have been commanded to keep silent! Cover up and conspiracy!

I need a good international lawyer and the several witnesses who live in the USA to help making my case. Now without interference from the Dutch State. An International Tribunal should look at this bizarre and inhuman case.

And according to Al Rust and Paul Bremer, I should become American as fast as possible to prevent the Dutch state keeping deciding over and for me/us. The Dutch State could and probably has asked the USA to help with the cover up of crimes committed by the State herself and maybe, without knowing, the Queen.

I still have my insurance payment of 58.000 euro a year until 65(still 4 years) so can live of that, although I have to help my wife with half of that, still in the Netherlands thinking I am insane.

I have my book 'Fighting the unknown' in Dutch part 1, and 2 ready. Part 3 needs more time, but it should be possible to find a publisher in the USA. It needs translation to English and some upgrading. The story is so absurd and bizarre; it should attract attention and some income also. Almost sure there will be a film about this unbelievable story.

Items I know about this crucial Al Rust:

1. Name could be a bit different like Cust, or Rust.
2. He was around 1983 manager facilities 97th General Army Hospital Frankfurt Germany.
3. He talk to me and I knew nothing, but in the Intelligence files was a big file about me and my wife, we both knew nothing about.
4. His manager logistics interrogated me unofficially outside the gate, together with Al Rust and two officials from Intelligence. They found out I knew nothing about the porn movies, Police matters, the three children not being mine, and being treated by a Dutch psychiatrist Onno van der Hart and more.
5. Al Rust then became Military intelligence official and lived around June 1st 1986 in Chicago.
6. Went on or around June 1st 1986 to Baker Brothers near Boston, in Stoughton to help me, but used his official credit card and forgot to ask official permission.
7. Baker Brothers sued him half a year later because of Dutch problems about my wife again, and People or State/Military took over the case. Without proof of the missing and deleted files, he could not proof his case then.
8. Had to sell his house and pay Baker Brothers damages, and suffered/lived several years with his wife's family in Harlingen, Texas.
9. Became Manager of Sears or likewise in Harlingen. Managed the new building of Sears.
10. At a dinner and convention or something like that, he told his story to some official, who helped him get a copy from Frankfurt of the deleted Dutch file about me, Hans Smedema and my wife. This was an official CIA business I think.
11. To check the things he told the CIA, old Dutch Ambassador Paul Bremer must have been asked to talk to me in Amsterdam June 14th 1996. He confirmed I knew nothing yet and suppressed a lot he told me.
12. After getting the copy of the secret file still in Frankfurt, Al Rust could reopen his case and won it based on the file. He was paid almost ten years salary and moved a few years later, 1998 to the most southern part of Florida.
13. His daughter Zoicite went in 1998 to my town Drachten with Rotary Youth Exchange specially(!) to talk to me and Officials, but was not believed as I still had amnesia and severe suppression. As my wife did. She went home very angry in 6 weeks, although it should have lasted almost a year. She is a crucial witness.

Married February 23th 1973 and has 3 children.

In 1993 followed the 'Advanced Management Program AMP-4 Nijenrode University, only for certain allowed CEO's.

Followed lots of seminars and management workshops.

Spent around 13 years working in a family business Euro-Routing which made and sold Signage systems to Hospitals and Airports. Experience in export to Middle East. Last position Commercial Manager/ CSO.

Was the CEO of a 50% owned German company also in Signage for 3 years.

Was CEO of Systems Engineering Heerenveen, Netherlands, 100% daughter of Baker Brothers Stoughton, Massachusetts USA.

Was outplacement consultant for a year and next 6 years CEO of IHN Engineering Leeuwarden with almost 100 employees, part of the larger holding with 350 employees and later merged with Grontmij with 1800 employees.

Last position was (successful) headhunter or 'Executive Searcher' in Drachten, Northern Netherlands for 10 years.

Member of Rotary Int. District 1590 club number 124. Int.Nr. 10454 Leeuwarden-Zuid, and Chairman 1998/1999, left 2003 because of this scrupulous cover up and some involvement of Rotary.

Was member of most clubs in the North of the Netherlands.

Had to stop this work in 2004, after in 2000 my memory came back, when everything was denied, declared insane (not true of course) and slowly I was able to reconstruct most what happened about all the lying and betraying done to us. An unbelievable conspiracy by the Dutch Government, Family, Medici and misled politicians. Maybe even Queen.

Now living of an insurance payment, fighting the crimes against us and doing research for my autobiography 'Fighting the Unknown' and writing it.

Geachte collega,

Op 18.01.06 zag ik bovengenoemde patient(e) op uw verzoek op de polikliniek urologie.

Reden bezoek: bij ons niet bekend. Uw vraagstelling betreft een poging tot sterilisatie als reden van consultatie.

Anamnese: in 1972 zou mogelijk traumatisch misbruik zijn geweest?

Voorgeschiedenis: zoals bekend perianale huidirritatie rafe perineum.

Lichamelijk onderzoek: bij onderzoek is het vas palpabel van de lies tot aan de aanhechting naar de epididymis, alhier is of een gap palpabel dan wel de diameter van het vas niet duidelijk te vervolgen. Er is in elk geval geen hoge vasectomie gepleegd. Ter plaatse van de scrotumhals links vergelijkbaar. Derhalve mogelijk distale ductus doorsnijding, dit is niet op basis van het klinisch onderzoek te diagnosticeren.

Semenanalyse wordt als eerste aangevraagd. Indien dit goed is lijkt patient vruchtbaar en is dit een mogelijk voldoende eerste antwoord. *Indien er geen spermacellen zich hierin bevinden kan overwogen worden om middels een chirurgische exploratie meer duidelijkheid te verkrijgen.*

Ik vraag me af of of niet invasief onderzoek dezelfde betrouwbaarheid kan geven.
T.z.t meer.

The old card from the home physician who knows about everything and helped with the cover up. He mentioned Zeist and the fact I went to a Hospital for my heart. This was in fact the murder attempt on my life! This card has been

rewritten according to my later home physician Lefering in Drachten and who found a secret letter in his file about the children not being mine and more.

2008 Human Rights Report: Netherlands

BUREAU OF DEMOCRACY, HUMAN RIGHTS, AND LABOR
2008 Country Reports on Human Rights Practices
February 25, 2009

The Kingdom of the Netherlands, population approximately 16.3 million, is a constitutional monarchy with a bicameral parliamentary legislative system consisting of the First Chamber, whose members are indirectly elected by the country's 12 provincial councils, and the Second Chamber, whose members are elected by popular vote. The most recent elections, held in 2006, were free and fair. A prime minister and a cabinet representing the governing political parties (traditionally a coalition of at least two major parties) exercise executive authority. Civilian authorities generally maintained effective control over the security forces.

The government respected the human rights of its citizens, and the law and judiciary provided effective means of addressing individual instances of abuse. There were reports of societal discrimination and violence against some religious and ethnic minorities, violence against women and children, and trafficking in persons for sexual exploitation.

Aruba and the Netherlands Antilles are two semiautonomous countries of the Kingdom of the Netherlands; they also feature parliamentary systems and full constitutional protection of human rights. Respect for human rights in these islands generally was the same as in the European Netherlands; however, conditions in the islands' prisons remained substandard in some respects.

RESPECT FOR HUMAN RIGHTS

Section 1 Respect for the Integrity of the Person, Including Freedom From:

a. Arbitrary or Unlawful Deprivation of Life

There were no reports that the government or its agents committed arbitrary or unlawful killings.

b. Disappearance

There were no reports of politically motivated or other disappearances.

c. Torture and Other Cruel, Inhuman, or Degrading Treatment or Punishment

The law prohibits such practices, and there were no reports that government officials employed them.

Prison and Detention Center Conditions

Prison and detention conditions in the Netherlands generally met international standards, and the government permitted visits by independent human rights observers. In the Netherlands Antilles, judges may sentence juveniles

Exhibit 2
 Date 5/15/09
 IJ initials RJK
5/14/2009

under the age of 16 who have committed serious offenses to prisons where they serve time together with adults; however, authorities allocated funding during the year to expand prison capacity to permit such juvenile offenders to be kept separately.

Shortcomings in detention and prison facilities, particularly overcrowding, persisted in Curacao and St. Maarten (Netherlands Antilles); however, due to increases in the capacity of their custodial facilities, overcrowding was no longer a problem in Aruba and Bonaire (Netherlands Antilles). A pilot project employing house arrest for selected inmates continued. A shooting, several stabbings, and a hunger strike took place among inmates of the Bon Futuro prison on Curacao. Prison guards went on strike once over labor conditions. On St. Maarten inmates went on strike once over remuneration for prison work and other grievances. The government reserved 25 million Netherlands Antilles guilders (approximately \$14 million) for the improvement of the Bon Futuro prison and for detention centers on the other Antillean islands.

During the year, following a recommendation by the Council of Europe's (COE) Committee for the Prevention of Torture (CPT) based on its June 2007 visit, authorities in the Netherlands stopped using two boats used to hold illegal immigrants awaiting deportation.

d. Arbitrary Arrest or Detention

The law prohibits arbitrary arrest and detention, and the government generally observed these prohibitions.

Role of the Police and Security Apparatus

Civilian authorities generally maintained effective control over the regional police forces, and the government has effective mechanisms to investigate and punish abuse and corruption. There were no reports of impunity involving the security forces during the year.

Arrest and Detention

Police officers, acting under the authority of the public prosecutor, conduct criminal investigations. A prosecutor or senior police officer must order any arrests. Authorities must promptly inform detainees of the charges against them. Police may question suspects for a maximum of 12 hours and may detain a suspect for up to three days (with the possibility of an additional three days' extension in cases of "urgent necessity") by order of the public prosecutor without the permission of a magistrate; within four days, however, police must bring detainees before an examining magistrate for questioning. This magistrate also decides whether to permit detention to be extended and reviews the validity of continued detention every 30 days. Extension depends on progress in the preliminary investigation. In terrorism related cases, authorities may hold suspects for up to 14 days if there is a "reasonable suspicion" of terrorist involvement.

By law defendants have the right to have their attorneys present during questioning; however, the UN Committee Against Torture (CAT) and the CPT expressed concern that authorities did not always respect this right during the initial period of detention, which may last up to six hours. During the year authorities initiated pilot projects in several towns to assure prompt legal assistance.

There is no provision for bail, but authorities avoid lengthy detention before trial unless there are compelling reasons to keep a person in custody.

In May 2007 the CAT criticized the excessive length of pretrial detention and the high number of detainees in Aruba and the Netherlands Antilles who have not been convicted of a crime. The governments of the two territories have

reduced the number of crimes requiring pretrial detention and implemented other policies aimed at reducing the case backlog, particularly more expeditious processing of cases involving illegal drugs.

e. Denial of Fair Public Trial

The law provides for an independent judiciary, and the government generally respected judicial independence in practice.

Trial Procedures

The law provides for the right to a fair trial, and an independent judiciary generally enforced this right. Trials are public. Juries are not used. The law requires that authorities fully inform defendants about the proceedings at every stage. In criminal trials the law provides for prompt access to counsel (inexpensively, for persons with low incomes), the presumption of innocence, and the right to appeal. In most instances defendants and their attorneys have access to government held evidence relevant to their cases; however, in certain cases involving national security, special procedures permit an examining judge to assess the reliability of official intelligence reports without exposing the identities of intelligence officers or releasing confidential intelligence information to the public or the defendant. The defense has the right to submit written questions to these witnesses through the examining judge.

Procedures and rights were the same or similar in Aruba and the Netherlands Antilles, where they were generally respected in practice; however, in 2007 the CAT expressed concern that in the Netherlands Antilles, a lawyer for the detainee may be present during interrogation only with the prior authorization of a magistrate. However, there were no reports during the year that requests for the presence of an attorney were denied.

Political Prisoners and Detainees

There were no reports of political prisoners or detainees.

Civil Judicial Procedures and Remedies

There is an independent and impartial judiciary in civil matters. Individuals may bring lawsuits for damages related to a possible human rights violation before the regular court system or specific appeal boards.

f. Arbitrary Interference with Privacy, Family, Home, or Correspondence

The law prohibits such actions, and the government generally respected this prohibition in practice.

Section 2 Respect for Civil Liberties, Including:

a. Freedom of Speech and Press

The law provides for freedom of speech and of the press, and the government generally respected these rights in practice. An independent press, an effective judiciary, and a functioning democratic political system combined to ensure freedom of speech and of the press.

It is a crime to engage in public speech that incites hatred, discrimination, or violence against persons because of their race, religion, convictions, gender, sexual orientation, or disability, and during the year the government prosecuted several cases successfully, notably cases in which judges considered the language in question to be

"unnecessarily offensive." The government urged prosecutors and police to give proper attention to incidents of "discrimination," which in the country's jurisprudence includes racially offensive speech.

In March a pilot project was begun in two regional police districts, including Amsterdam, to improve the reporting of hate crimes, including hate speech, by using a special Web site. In July the city of Amsterdam started a campaign to encourage the reporting of such incidents to the Amsterdam Discrimination Registration Center.

In April a district court declined to issue an injunction against the showing of a film by right wing parliamentarian Geert Wilders. Wilders' film, "Fitna," asserted that Islam preaches violence and hatred. The government criticized the film, claiming it served no purpose other than to cause offense. The court ruled that "the right to freedom of speech is decisive," the views expressed in the film "do not exceed the legal boundaries against inciting hatred or violence," and as a politician, Wilders "should be able to put forward in the public debate" his criticism against radical Islam or the Koran.

On June 30, the Amsterdam public prosecutor's office announced that it would not prosecute Wilders for his numerous anti Islamic statements. In April the prosecutor determined that, although they were offensive to Muslims, they were not a criminal offense because "they were made within the context of the public debate on Islam." The prosecutor also ruled that Wilders did not intentionally incite to hatred or discrimination. The prosecutor arrived at his judgment after consulting the National Discrimination Expertise Centre (LECD), as well as legal experts on questions of national and European law. The decision explicitly referred to prevailing jurisprudence of the European Court of Human Rights (ECHR) that allows room for statements that offend or shock if made within the context of public debate. The prosecutor's decision was under appeal at the end of the year.

On May 13, police detained and questioned for 30 hours a cartoonist, who used the pseudonym of Gregorius Nekschot (Deathblow), in connection with several cartoons that the prosecutor believed violated the law on intentional discrimination and incitement to hatred against Muslims. Some parliamentarians criticized the police action as an extremely inappropriate attempt to curtail freedom of expression, an accusation the justice minister denied. Legal experts concluded that the prospect of successfully prosecuting the cartoonist was minimal.

Internet Freedom

There were no governmental restrictions on access to the Internet. Individuals and groups could engage in the peaceful expression of views via the Internet, including by e mail. More than 85 percent of the population had access to the Internet.

During the year authorities took measures to deal more effectively with incitement to discrimination on the Internet. Despite the priority given to such cases, there were only three convictions in 2007, the latest year for which data were available.

Academic Freedom and Cultural Events

There were no government restrictions on academic freedom or cultural events.

b. Freedom of Peaceful Assembly and Association

The law provides for freedom of assembly and association, and the government generally respected these rights in practice.

c. Freedom of Religion

The law provides for freedom of religion, and the government generally respected this right in practice. There were no reports that the government attempted to limit the freedom or exercise of religion during the year.

Rulings of the courts and the Equal Opportunities Committee generally held that any restriction on wearing headscarves in schools or places of employment should be limited and based on security or other narrow grounds. The government banned clothing covering the full face in the administration and education sectors.

Societal Abuses and Discrimination

There were some reports of societal abuses or discrimination based on religious affiliation, belief, or practice. Jews and Muslims faced instances of abuse during the year, although the experiences of the two communities differed. The government repeatedly criticized any form of anti-Semitism or anti-Islamic activity and worked with nongovernmental organizations (NGOs) to combat such abuses.

Muslims, who numbered approximately 850,000, faced societal resentment attributable to perceptions that Islam is incompatible with Western values, that Muslim immigrants have failed to integrate, and that levels of criminal activity among Muslim youth are higher than the national average. Major incidents of violence against Muslims were rare, but minor incidents, including intimidation, brawls, vandalism, and graffiti with abusive language, were common.

A number of right wing politicians described Islam as incompatible with the country's traditions and social values. In a report released on February 12 (but prepared in 2007), the COE's European Commission against Racism and Intolerance (ECRI) asserted that political figures' criticisms of Islam contributed to what it considered a substantial increase in Islamophobia. Despite protests by Muslims and others, in April a court declined to forbid the showing of a film that was widely criticized for its anti-Islamic content, and a prosecutor declined to prosecute the film's maker for his many anti-Muslim public statements. Both the court and the prosecutor justified their decisions on freedom of speech grounds (see Section 1 a.).

Authorities stressed their conviction that the majority of Muslims fit comfortably into society. The government continued a comprehensive outreach campaign to counter anti-Muslim sentiments and right wing nationalism, including a 25 million euro (approximately \$35 million) grant for programs in neighborhoods and schools during the period 2008-11. These efforts raised public awareness and triggered debate, but concerns about the policy's effectiveness remained. The government made clear that it would combat groups espousing violence in support of an Islamist extremist agenda.

The population included approximately 45,000 Jews. Anti-Semitic incidents, including verbal threats, cursing, and desecration of monuments and cemeteries, continued to occur. Certain small groups that opposed Israeli policies, including the Arab European League and the Stop the Occupation Movement, frequently used what some observers regarded as anti-Semitic language and images to express their views about Israel. Explicitly anti-Semitic sentiments prevailed among certain segments of the Muslim community and among fringe nationalist and neo-Nazi groups. Serious incidents were rare during the year; however, anti-Semitism among right wing extremists appeared to increase. Extreme right wing anti-Semites were the primary culprits in the few instances of vandalism of Jewish buildings and monuments and desecration of cemeteries.

The independent Registration Center for Discrimination on the Internet (MDI) reported that strongly anti-Semitic statements regularly appeared on both right wing extremist and radical Islamic Web sites. The sites targeted not only Jews but other groups, including Muslims, blacks, and homosexuals. Observers noted a new phenomenon of right wing youth augmenting their profiles on Internet social networking sites with anti-Semitic texts. The Center for Information and Documentation on Israel called for stronger government action against anti-Semitic Web sites,

describing the Internet as one of the main sources for dissemination of anti Semitic and racist ideologies. An antidiscrimination NGO and several major political parties asked the justice minister to take action against the Web site of the neo Nazi organization Blood and Honor.

Anti-Semitism was the subject of 72 of 4,000 complaints received by a network of antidiscrimination bureaus across the country in 2007. The number was smaller than in previous years. According to network representatives, the number of anti Semitic incidents appeared to be correlated with the situation in the Middle East.

The government continued to condemn anti-Semitism and to work with NGOs to combat it. The government urged prosecutors and police to give proper attention to incidents of discrimination, including discrimination on religious grounds. The authorities maintained a cybercrime Web site through which citizens can report radical statements and hate e mail. Although the government gave priority to countering discrimination and incitement to hatred on the Internet, critics charged that law enforcement agencies could still do considerably more.

For a more detailed discussion, see the 2008 International Religious Freedom Report at www.state.gov/g/drl/irf/rpt.

d. Freedom of Movement, Internally Displaced Persons, Protection of Refugees, and Stateless Persons

The laws provide for freedom of movement within the country, foreign travel, emigration, and repatriation, and the government generally respected these rights in practice. The government cooperated with the Office of the UN High Commissioner for Refugees (UNHCR) and other humanitarian organizations in providing protection and assistance to refugees, returning refugees, asylum seekers, stateless persons, and other persons of concern.

The law prohibits forced exile, and the government did not employ it.

Protection of Refugees

The law provides for the granting of asylum or refugee status in accordance with the 1951 UN Convention relating to the Status of Refugees and its 1967 protocol, and the government established a system for providing protection to refugees.

The government remained committed to providing protection against the expulsion or return of refugees to countries where their lives or freedom would be threatened; however, some observers asserted that some of the government's procedures ran this risk. The authorities provided economic assistance to those to whom it denied asylum and who chose to return home voluntarily.

Authorities denied asylum to persons who came from a so called safe country of origin or who resided for some time in a safe country of transit. They used European Union guidelines to define such countries.

The UNHCR and NGOs, including Amnesty International (AI), raised cases in which protection from return to unsafe countries appeared to have been violated and called for stricter policies to prevent future instances. The authorities promised to investigate the allegations. These charges also drew intense political scrutiny and gave rise to parliamentary hearings that reversed or delayed government proposals to return asylum seekers from Somalia and parts of Iraq, as well as homosexuals and Christian converts from Iran.

Several organizations, including AI and the Council for the Administration of Criminal Law, criticized the manner of detention of aliens prior to deportation. Since these aliens are not criminals, the critics maintained that they should not be subjected to a criminal regime or kept in detention for extended periods of time, especially if there was little or no prospect of actual deportation. Courts have ordered the aliens' release if there is no prospect of actual

deportation. The state secretary for justice promised to review the situation, but noted that there was no evidence of structural abuse in the treatment of aliens in detention centers. Moreover, she stated that she had already taken measures to keep families with children out of detention.

In May 2007 the CAT expressed concern that asylum procedures did not allow asylum-seekers enough time to substantiate their claims and consult an attorney, which could lead to refugees being returned to unsafe countries. Also in May 2007 the ECHR criticized the "excessive formalism" of the country's asylum procedures and called for a more generous assessment of asylum requests that took into account reports produced by human rights NGOs, such as Human Rights Watch.

Stateless Persons

Citizenship is primarily based on the mother's citizenship (*jus sanguinis*). According to the UNHCR, of a total of nearly 700,000 first-generation, non western immigrants, there were 4,461 stateless persons at the end of 2007. According to Statistics Netherlands, the local administrations had registered more than 5,000 stateless persons, including 1,463 persons under the age of 17, by the end of the year.

The Kingdom Act on Dutch Citizenship has repeatedly been revised in order to counter and prevent statelessness, including by providing the opportunity to gain Dutch citizenship. There were no reports of violence or discrimination targeting stateless persons.

Immigrants may naturalize after five years of legal residence, or three years if they are married to a citizen. Migrants who are not naturalized are allowed to work in the civil service, with the exception of the police force and the army. After five years of legal residence, nonnationals have the right to vote in local elections. A written naturalization examination that tests both the applicant's Dutch language proficiency and knowledge of the country's culture and society is required for citizenship.

Section 3 Respect for Political Rights: The Right of Citizens to Change Their Government

The law provides citizens with the right to change their government peacefully, and citizens exercised this right in practice through periodic, free, and fair elections held on the basis of universal suffrage. These constitutional rights also apply to the Netherlands Antilles and Aruba, where they were also exercised in practice.

Elections and Political Participation

Parliamentary elections held in November 2006 were free and fair.

Political parties operated without restriction or interference. One of the oldest political parties, the Protestant Political Reformed Party (SGP), continued to deny women the right to run for office, despite a December 2007 ruling by The Hague Appellate Court that by doing so it was in violation of the Convention on the Elimination of All Discrimination against Women. The court ordered the government to take action to force SGP to change its policy. At year's end both the SGP and the government had appeals pending with the Supreme Court against this ruling.

There were 62 women in the 150 seat Second Chamber of parliament, four female ministers in the 15 member cabinet, and six women among the 11 junior ministers. Women also held positions in the parliaments and cabinets of the Netherlands Antilles and Aruba, including the position of prime minister of the Netherlands Antilles.

Approximately 15 members of ethnic minorities Turkish, Moroccan, and Surinamese served in the 150 seat Second Chamber of parliament. Two junior ministers in the cabinet were Muslims of Turkish and Moroccan background.

Government Corruption and Transparency

The law provides criminal penalties for official corruption, and the government generally implemented the law effectively. However, in August the COE's Group of States Against corruption concluded in an assessment of the country's anticorruption policy that the maximum sentence for corruption was too light and not in line with relevant COE guidelines. There were isolated reports of government corruption during the year.

There were press reports of corruption among some working level law enforcement personnel at Schiphol Airport, but observers did not believe the problem was widespread or systemic. In 2007, the most recent year for which information was available, authorities imposed disciplinary sanctions on 210 central government employees for abusing their positions.

There were no laws requiring officials to make financial disclosures. The government pursued an active anticorruption policy coordinated by the Internal Affairs Ministry's Bureau for Promotion of Integrity of the Public Sector. The National Criminal Investigation Service coordinates investigations under the supervision of the national prosecutor for corruption.

The law provides for public access to government information, and authorities generally respected that right for both citizens and noncitizens, including foreign media. Those seeking information may appeal any refusal to the regular courts. Disputes occasionally arose in court over the scope of the government's right to withhold information based on the public interest. For example, there were disputes over whether to release certain classified internal memos.

Section 4 Governmental Attitude Regarding International and Nongovernmental Investigation of Alleged Violations of Human Rights

Several domestic and international human rights groups generally operated without government restriction, investigating and publishing their findings on human rights cases. Government officials were cooperative and responsive to their views.

On July 11, in response to appeals by the UN and the COE, the government announced that it would set up a National Institute for Human Rights in accordance with the 1993 "Paris Principles" governing such institutions. The institute is intended to research human rights issues, give advice on policies, and help deal with complaints more efficiently.

At year's end, the government was selecting personnel and deciding on a budget for the new institute.

The government has a long tradition of hosting international legal tribunals, including the International Court of Justice, the International Criminal Tribunal for the former Yugoslavia, the International Criminal Court, and the Special Court for Sierra Leone.

Section 5 Discrimination, Societal Abuses, and Trafficking in Persons

The law prohibits discrimination based on age, race, gender, disability, language, political preference, sexual orientation, and social status, and the government generally enforced these prohibitions. However, violence against women and children, trafficking in persons, and discrimination against ethnic minorities were problems.

Women

Rape, including spousal rape, is a criminal offense, and the government effectively prosecuted those accused of

such crimes. The penalty for rape is imprisonment not exceeding 15 years or a fine. The maximum sentence for marital rape is eight years' imprisonment.

Domestic violence was the most prevalent form of violence in society. According to a fact sheet issued in August by the Ministry of Justice, there are approximately 500,000 incidents of household violence each year. At some point in their lives, 40 percent of the population experienced domestic violence. Of these, 10 percent reportedly experienced some form of physical, sexual, or mental abuse on at least a weekly basis, and 4 percent had been raped. According to police records, approximately 85 percent of victims were women. Police estimated that approximately 12 percent of all cases are reported. In September the government presented a national action plan to intensify the fight against household violence in 2008 11. Its objective was a coherent approach involving prevention, identification, and intervention; it called for upgrading the expertise of police and expansion of the public prosecutor's office. Under the action plan, the probation service developed a comprehensive program intended to reduce the number of repeat offenders. At year's end the government was conducting a national survey into the scope of domestic violence.

Spousal abuse carries a penalty one third more severe than ordinary battery. Police records indicated that approximately 3 percent of the cases of spousal abuse reported to police resulted in arrests. The national organization Movisie (formerly TransAct), supported by the government, assisted victims of domestic violence and those investigating and prosecuting related crimes. The government subsidized shelters for battered women. In August the government announced that it would continue its 2007 public information campaign against domestic violence until the end of September. In The Hague the campaign led to a 43 percent increase in the number of incidents reported in 2007.

In July the government made it easier for female immigrants who were victims of domestic violence or abandoned by their partners to obtain residence status on their own. Previously, immigrant spouses depended on their partners for their legal status during the first three years of their stay. Under the new guidelines they could claim residence status within this period if they were either victims of domestic violence or were abandoned by their partners in their country of origin. In addition, the government would consider granting residence in the Netherlands to a woman who was abandoned in her native country but who had some roots in Dutch society, if she faced the risk of a forced marriage or of being abandoned by her family.

There were no recent statistics on honor killings, but 279 and 158 cases of honor related violence were reported in The Hague and Amsterdam, respectively, in 2006. The government continued a 2006 program to combat honor related violence. Authorities allocated approximately 13 million euros (\$18.2 million) to the program, which focused on prevention, protection, and criminal prosecution. In June the Expertise Center for Honor Related Violence opened in Amsterdam.

Prostitution is legal for persons age 18 or older who engage in the practice voluntarily. The law provides penalties for Dutch nationals and legal residents who abuse minor children abroad, even if the offense is not a crime in the country where the abuse occurs.

Sexual harassment was a problem. While there were no recent statistics on its prevalence, a 2003 study showed that 5.3 percent of female workers were sexually intimidated in the workplace. The law requires employers to take measures to protect workers from sexual harassment. The government continued a public awareness campaign and has taken measures to counter harassment among civil servants, but no information was available about the measures' effectiveness.

Under the law women have the same rights as men, including rights under family law, property law, and in the judicial system.

Approximately 65 percent of women were employed, nearly two thirds of them part-time. The government was taking measures to make daycare more accessible to support full time employment for working parents. Female and male unemployment rates were 5.8 and 3.6 percent respectively. The Ministry of Social Affairs and Employment reported that the higher rate of unemployment among women, their reduced chances for promotion, and their generally lower ranking positions than men resulted primarily from their part time employment. According to the ministry, the disparity between men's and women's earnings in the private sector narrowed from 23 percent in 2006 to 18 percent in 2007; adjusted for level of experience and expertise required for the jobs, the differential was 7 percent.

The government provided affirmative action programs for women, and collective labor agreements usually included provisions to strengthen the position of women. In 2007 the Equal Treatment Commission received 515 complaints from women about labor discrimination related to their employment.

Children

The government worked to ensure the welfare of children through numerous and generously funded health, education, and public information programs.

Child abuse was a problem. In an April 2007 study, Leiden University concluded that more than 100,000 children were victims of abuse. Many of them had been physically or emotionally neglected. The study estimated that 4,700 children had been sexually abused and 19,000 had suffered physical abuse. Experts estimated that approximately 50 to 80 children died each year from some form of abuse. In 2007 the Child Abuse Reporting Center received more than 50,000 reports of possible child abuse, 20 percent more than in 2006. In September the government began to require physicians to report child abuse, overriding professional confidentiality. Despite increased government funding for the Council for the Protection of Children, there still were long waiting lists for assistance.

The law prohibits female genital mutilation (FGM). In 2007, the government's National Public Health Council estimated that at least 50 girls a year underwent FGM; the FGM committee established by the Ministry of Health estimated the number of girls at risk at 16,000. In 2006 the government launched a three year program to combat FGM through primary prevention and early identification. It has committed more than one million euros (approximately \$1.4 million) per year to combat FGM. The maximum penalty for FGM is six to nine years' imprisonment.

Trafficking in Persons

The law in the mainland Netherlands prohibits all forms of trafficking in persons; however, trafficking in persons was a problem. Aruba has an antitrafficking law. The Netherlands Antilles, which has no specific antitrafficking law, has successfully used existing legislation to prosecute traffickers.

The Netherlands was a destination and country of transit for trafficked persons, and trafficking within the country was also a problem. NGOs and police estimated that the number of women and girls trafficked for commercial sexual exploitation ranged from 1,000 to 3,600. Comensha, formerly the Foundation against Trafficking in Women, an independent NGO that helps victims of trafficking, registered 716 victims in 2007, up from 579 in 2006. The top five countries of origin were the Netherlands (260 victims), Nigeria (102), Bulgaria (50), China (37), and Sierra Leone (29). Of the 716 victims registered in 2007, 49 were male and 198 were younger than 18. According to Comensha, most female victims were exploited in prostitution. Thirteen victims worked as domestic servants and nine in the catering sector. Of the male victims, five worked in the catering and three in the construction sectors. There were reports that trafficking in persons for commercial sex and labor was a problem in the Netherlands Antilles.

Almost all of the 260 domestic victims of mainland trafficking registered in 2007 were girls with immigrant backgrounds seduced and coerced into prostitution by so called "lover boys," primarily young Moroccan or Turkish men and boys. Most traffickers used threats of violence toward the victims or their families to control their victims. Most vulnerable were underage girls and young women of Moroccan and Turkish descent (mostly "lover boy" victims), underage asylum seekers, women with dependent residence status obtained through fraudulent marriages, and women recruited in Africa.

During the year a foreign court ordered the Curacao Drydock Company in the Netherlands Antilles to pay damages to three Cuban workers who were among the approximately 100 who were forced to work for long hours with virtually no pay in 2005 and 2006.

The maximum sentence for trafficking in persons in the mainland Netherlands is normally six years. Courts may increase sentences in certain cases. For example, the maximum term is 10 years when the victim is younger than 16, 12 years when the person being trafficked is seriously injured, and 15 years when trafficking results in the victim's death. The legal definition of trafficking in persons includes labor trafficking.

In 2006 the Dutch public prosecutor's office prosecuted 216 traffickers, compared to 138 in 2005, and the courts convicted 100 traffickers, compared to 114 in 2005. In July the court gave six members of a major Turkish German trafficking gang prison sentences of eight months to seven and one half years. The prosecutor's office considered the sentences too low and appealed the verdict. The appeal was pending at year's end. In 2007 prosecutions in four labor exploitation cases ended in acquittals. Appeals in two of these cases were pending. During the year, according to a prosecutor in the Netherlands Antilles, a court, using other charges, convicted a club owner in St. Maarten for trafficking three women for commercial sex.

The government in the mainland Netherlands, especially the ministries of Justice, Internal Affairs, Foreign Affairs, Welfare and Health, and Social Affairs, actively combated trafficking in persons. Local police forces established special units to deal with trafficking, and the National Crime Squad's Expertise Center on People Trafficking and Smuggling (EMM) brought together experts from the National Police Criminal Investigation Service, military border police, regional police forces, the Immigration and Naturalization Service, and the Social Information and Investigation Service. The national prosecutor for trafficking in persons supervised investigations conducted by the EMM, which also provided specialized training to police in the identification and protection of trafficking victims. The national rapporteur on trafficking in human beings heads an independent, publicly funded agency that reports annually to the government on the nature, extent, and mechanisms of trafficking as well as on the effects of national policies. Authorities participated in international investigations and cooperated closely with other governments on trafficking. In February a human trafficking task force was set up that included a member of the Board of Attorneys General, the national rapporteur, senior officials of various ministries, the police, and local government and judicial officials.

The mainland Netherlands government provides a temporary residence mechanism (the B 9 visa) that gives trafficking victims three months to consider pressing charges against their traffickers. A victim who does so may remain in the country until the legal process has been completed. During this period, the victim receives legal, financial, and psychological assistance, and may work or receive vocational training. Victims may request a permanent residence permit on humanitarian grounds.

Specially trained police conducted regular inspections of brothels and other commercial sex establishments to verify that individuals in the sector were working voluntarily and to identify any potential trafficking victims.

The Dutch government subsidized NGOs working with trafficking victims. For example, Comensha offered victims

social support, legal advice, medical aid, shelters, and counseling. The Justice Ministry cofinanced the La Strada program, aimed at preventing trafficking in women in Central and East European countries.

In January the Justice Ministry provided funding for the Anonymous Crime Reporting Center to renew and expand the successful campaign against trafficking and sexual exploitation launched in 2006.

The State Department's annual Trafficking in Persons Report can be found at www.state.gov/g/tip.

Persons with Disabilities

Discrimination against persons with disabilities was prohibited, but government enforcement was inadequate, and there were some reports that such discrimination occurred. The penal code provides penalties for discrimination in employment, education, access to health care, and the provision of state services. The Equal Opportunity Commission (CGB) received several dozen complaints, mostly labor related, of such discrimination. Although CGB rulings are not binding, they are usually implemented. The law requires access to public buildings for persons with disabilities, but public buildings and public transport often were not easily accessible in practice.

National/Racial/Ethnic Minorities

Incidents of physical assault against minorities were rare, but members of minority groups experienced verbal abuse and intimidation and were at times denied access to public venues such as discotheques. The Muslim community of approximately 850,000 persons faced frequent discrimination. Members of immigrant groups also faced discrimination in housing and employment. In 2007 the minority unemployment rate (15.5 percent) remained roughly three times that of the ethnic Dutch workforce (4.3 percent).

A February 12 ECRI report contended that a number of government practices both stigmatized and discriminated against members of minority groups. For example, ECRI cited reports that police singled out individuals from the Netherlands Antilles living in the mainland Netherlands for searches without apparent reason. The report criticized a planned registration system authorities had proposed specifically for Antilleans. The government defended the registration idea as a temporary expedient that could enable it to locate members of this transient minority in order to provide them with targeted support.

With the proliferation of Internet Web sites, the dissemination of racial and discriminatory material remained widespread. The MDI registered more than 1,000 instances in 2007 that it asserted were punishable, a 10 percent increase over 2006. Jews, Muslims, Moroccans, and Africans were the main target groups. A significant number of controversial expressions (more than 90 percent) were removed voluntarily at the center's request. MDI reported the nine most serious cases to the prosecutor's office, but none was brought before a court.

The government pursued an active campaign to increase public awareness of racism and discrimination. Depending on the circumstances, persons could file complaints of racism or discrimination with the civil and criminal courts, the CGB, the national ombudsman, the Commercial Code Council, the Council for Journalism, the European Court of Justice, and the ECHR.

A network of antidiscrimination bureaus across the country received more than 4,000 complaints in 2007, approximately the same number as in 2006. Most complaints concerned discrimination on racial or ethnic grounds. About half of the complaints were about discrimination in the labor market.

The majority of cases filed in criminal courts concerned racial defamation. Civil lawsuits often alleged discrimination against persons who were not ethnically Dutch in the supply of services, such as mobile phones, or access to clubs.

The CGB focused on discrimination in the labor market, including discrimination in the workplace, unequal pay, termination of labor contracts, and preferential treatment of ethnically Dutch employees.

On May 14, the city council of Amsterdam presented an updated plan of action against discrimination. The priorities were to enhance victims' willingness to report incidents, to counter hate crimes against homosexuals, and to promote a nondiscriminatory policy at clubs and bars. Meanwhile, AI voiced criticism that most local governments had failed to develop plans to combat discrimination and racism.

Other Societal Abuses and Discrimination

There was increasing harassment of homosexuals in larger cities, primarily by some groups of Muslim youth. Most harassment consisted of verbal epithets and abuse. Police gave efforts to combat antigay violence high priority. Amsterdam police, who began keeping separate records of antigay incidents in 2007, recorded 234 antigay incidents in that year. Most involved cursing and threats, but 79 cases involved violence.

There were no reports of societal violence or discrimination against persons with HIV/AIDS.

Section 6 Worker Rights

a. The Right of Association

Workers are entitled to form or join independent unions of their own choosing without prior government authorization, and workers exercised this right in practice. Approximately 25 percent of the legally employed work force was unionized. The law allows unions to conduct their activities without interference, and the government protected this right in practice. The law provides for the right to strike, and workers exercised this right by conducting legal strikes. Public sector workers generally have the right to strike, but a magistrate may forbid a strike that threatens the public welfare or safety. For example, magistrates have often prohibited police actions because of the essential services they perform.

b. The Right to Organize and Bargain Collectively

The law provides for the right to organize, and specific laws provide for the right to collective bargaining; workers exercised these rights in practice. Collective bargaining agreements covered approximately 86 percent of workers.

There are no export processing zones.

c. Prohibition of Forced or Compulsory Labor

The law prohibits forced or compulsory labor, including by children; however, there were reports that adults and children were trafficked for commercial sexual exploitation and adults for labor exploitation. There were occasional reports that workers were exploited in the restaurant, food processing, domestic service, and agricultural sectors.

During the year a foreign court ruled in favor of three Cubans who asserted they were among approximately 100 Cuban workers in a drydock company in the Netherlands Antilles in 2005 and 2006. They were obliged to work for as many as 110 hours a week at three cents an hour. Their labor was the result of an arrangement between the Cuban government and the Curacao Drydock Company, in which the government of the Netherlands Antilles was the largest shareholder, to pay off Cuba's multi million dollar debt to the company. The workers who escaped described dangerous working conditions that resulted in serious injuries; they claimed their passports had been seized and they were only allowed to leave the drydock on limited occasions and accompanied by a minder. In 2007

the Antillean government investigated allegations of labor law violations against the drydock and found insufficient evidence to proceed in the complaint of excessive work hours. The arrangement between the company and the Cuban government was terminated in 2007.

d. Prohibition of Child Labor and Minimum Age for Employment

The government enforced laws and policies to protect children from exploitation in the workplace; however, children were trafficked for commercial sexual exploitation. In 2007 the Dutch Coordination Center against Trafficking in Persons registered 198 trafficking victims under the age of 18.

The minimum age for employment is 16 years. Sixteen year olds in school may not work more than eight hours per week. The law prohibits persons under the age of 18 from working overtime, at night, or in activities dangerous to their physical or mental well being. A tripartite labor commission composed of representatives of government, enterprises, and unions monitored hiring practices and conducted inspections. The commission enforced the laws effectively.

Holiday work and after school employment are subject to very strict rules set by law. The Ministry of Labor's inspection office, which is charged with enforcement, found during the year that 70 percent of companies employing holiday workers and children under 18 complied with regulations.

e. Acceptable Conditions of Work

The minimum wage for adults of 1,356.60 euros (approximately \$1,900) per month provided a decent standard of living for a worker and family. The minimum wage is established by the Ministry of Labor.

The law sets a 40 hour workweek. The average workweek was 30.6 hours (38.7 hours for full time and 20 hours for part time workers). Persons working more than four and one-half hours per day were entitled to a 30 minute rest period. Overtime is regulated. There are no exceptions for legal foreign workers. The Labor Inspectorate effectively enforced the labor laws.

The tripartite labor commission actively monitored and effectively enforced working conditions, including comprehensive occupational safety and health standards set by law. The Ministry of Labor and Social Affairs also monitored standards. Workers could remove themselves from dangerous working conditions without jeopardizing their continued employment, and they exercised this right in practice.

Workers in the significant underground economy enjoyed neither the minimum wage nor any of the other legal, administrative, or safety protections available to other workers.
