

## **Problem 1**

A secretly given wrong(!) medicine hidden(!) as baby-aspirin 100mg in the official boxes. Which problem can be easily solved with legal letters to the 3 organisations involved. Not specific Lawyer needed? Legal help is enough?

Why?

To find evidence of the Dutch(Netherlands) secret hiding people/organizations who are criminally(!) behind this. Not(!) to prosecute anyone in Spain. Evidence also in the Netherlands.

## **Easy action!**

Get all my Spanish official medical files in writing(!) as legal evidence(!) necessary to stop this wrong Dutch initiated medicine(Risperdal) that handicapped me severely for 2 decades:

1. From Salud: SIP 07585072, specific dossier Doctor Carmen Montoya, and Claudiu Gherman Albir.
2. Hospital la Marina Baixa La Villa patient Hans Smedema NIE: X9881610M, specific for broken arm when arriving on Thursday March 24, 2022, and operation on Monday and released the same day.
3. Farmacia Albir: Dra. Ana Ma Bartolome Gisbert, Bulevar de los Músicos 18 - El Albir

**There was another Farmacia in Parcent in 2008 who told me you are not psychotic at all, you should stop taking these aspirins! It is only for very disturbed dangerous people which clearly you are not! This was confirmed in 2009 by an FBI/CIA investigation during the first Asylum request! In the Netherlands also as a Farmacia even refused(!) me as a client for those false(!) dangerous aspirins!**

## **More background details**

1. This also happened in the Netherlands based on false information from my former mentally sick(dissociation) wife, who accused me of being delusional about her sexual abuse long ago. We divorced on June 29, 2015 in agreement of both. No problems.
2. But apparently the Netherlands has sent that wrong information in medical files to Spain. Causing the wrong diagnosis(!) to me secretly, without any information(!), getting the wrong medicine. In the Netherlands Antipsychotic Risperdal, based on the wrong information by my wife, what a psychiatrist Frank van Es not believing me, confessed in writing(!) to a disciplinary Court when I confronted him.
3. This led to our divorce and me going safely to Spain. But apparently they keep secretly(!) giving me that or equal without my consent or approval and totally wrong for me as I am not psychotic at all.
4. **When arriving with a broken arm in Hospital La Marina Baixa the anesthetist checked the medical file about me and told me: "Are you aware that the aspirin you take daily is no aspirin, but an antipsychotic?"**
5. So even safely in Spain and a completely normal peaceful person, the negative influence of my former wife is hunting after me.
6. Confronted Carmen Montoya, but she denied knowing anything, while I kept telling her that I was not delusional at all and did not need that wrong antipsychotic which made me lethargic! She was nervous!
7. Claudiu Gherman after retirement of the very sympathetic Carmen, a few weeks ago told me you do not need that aspirin at all and I felt much better/energetic of course. Also I myself stopped it earlier and felt much better.

8. Suddenly when collecting my new medicine on Friday December 27, 2024 by my Farmacia she told me that the Aspirin was suddenly added again, without my consent or talking about it. Horrifying and all based on a Rapist-Traitor Joris Demmink manipulating the Ministry of Justice, and the wrong information from a mentally sick wife apparently keeping to harass me even when in beautiful sympathetic Spain.

This is insanely terrifying treatment like I am a dog, while not informing me at all. I need to stop this! With evidence in legal documents(!) specific about who ordered it and why, based on what? **Nothing verbally!!!**

## **Problem 2**

**Now easy Problem 2 about getting evidence from American FBI/CIA investigation confirming my case.**

### **AI - Google NotebookLM**

This problem is now suddenly relatively easy because of the recent AI Google NotebookLM Insights, which is able to do much better investigations than any Lawyer in 10 seconds, which took me 24 years(!) of painstaking writing down every crime or important event that happened to me with dates, names and more. I can grant direct access to that AI system with all my sources!

This second much larger problem about millions in damages is based on the huge decades-long Human Rights Violations by the Netherlands because they violated the UNCAT rules, to investigate my, and my former wife's, persecution case by the Ministry of Justice/AIVD since 1972.

In that case America investigated my claims and confirmed it verbally through Miami Immigration Court/DOJ Judge Rex J. Ford after an FBI/CIA investigation during 3 Asylum requests in 2009, 2013/14 when 2009 was reopened, and 2016/17, when President Obama pardoned me(or for the case?)! I was offered that Asylum by my Asylum-only Judge Rex J. Ford on March 15, 2017, but it was fraudulently blocked by KLM Copilot King Willem Alexander in the air above Montana. So the King committed a severe crime(!) legally in America.

As the victim without legal help I was put in detention for 13 months when arriving at Schiphol. In total I was in innocent(victim) detention in America for 15 months and 14 months in the Netherlands after unfair trials where no defense was allowed. Apparently the Omerta Org as I call it, was secretly able to take away my legal rights and appoint that Omerta Org as responsible and in charge of me, without ever telling me about it.

The King wants this huge case to be settled himself, so somebody should try that possibility.

I was able to get a lot of files from 3 agencies by using the American Freedom of Information Act(FOIA), but those stopped when the crucial FBI/CIA investigation into my persecution started! So those crucial FBI/CIA report files are not yet available to me, because that must be done by an American(!) Lawyer, as Rex Ford told me.

President Obama's Pardon initiated a special complaint State America vs. State Netherlands which started in May 2017 I was told. It is a UNCAT case, but most likely they filed it with the UNHRC as a special procedure. And when Trump suddenly took America out of the UNHRC in 2018 it stopped.

The DOJ prepared that complaint in 3 months according to Rex Ford. But I heard nothing anymore. DOJ estimated the damages in a settlement at 50 million!

So an American contact of you should look into that.

### Problem 3

I am preparing an official complaint for the European Commission and could use some help for that. My European Parliament Complaint and ECHR failed because of no legal help. And because the Dutch Ministry lied that there is no dossier about me or my wife. But America has a copy of that file! My betrayed by the Dutch Ministry of Justice, no dossier existed about me and my wife, an American friend used it in his appeal case and won with almost a million(10 years salary) damages. So based on Fraud by rapist-traitor Joris Demmink.

### **The Payment**

As the Dutch victim(!) I have the right to free legal aid from the Netherlands:

'Raad voor de Rechtsbijstand'

who also paid my enemy Joris Demmink, who is my main counterpart in this case, 154.000 euro for his legal expenses in a separate case, but a bit related.

I contacted them years ago and they confirmed that for very special cases they can do that. But they need a request from a Lawyer! Maybe a Dutch intermediate necessary? Lawyers in the Netherlands are not allowed to help me, as are Police and Prosecutors. Huge Human Rights Violations! The Dutch also refused a UNCAT investigation since 2000. That/those requests just as everything else, needs to be in written legal documents, not worthless verbal nonsense. Payment will only happen for legal evidence, also if they deny! Both are perfect evidence.

So I need you to prepare a request with(!) my help. I will prepare a draft with the crucial information for you. Also America earlier paid some legal help, if I ask them.

I have lots of documents, but at the moment that is not necessary anymore because America has the complete complaint file ready since May 2017 and filed that with UNHRC as a special procedure, which is NOT public, only the outcome is public. So I only need help getting it by an American Lawyer acting on your/my combined request.

I need a legal person or Law Firm with a retired Abogado or an intelligent intern(?) who organizes these things, mostly by putting others at work. Great case for half a year for an intern as a graduation research?

This case is unique in many parts. Rex Ford/DOJ found 5 good(!) grounds for Asylum that had never happened before in the known history of America. And 24 years of Dutch betrayal and UNCAT violations is unique also, as is the mind control and daily(!) drugging used in this horrifying case. The Dutch King fraudulently involved is also unique. People involved in this case could get famous.

I need a written, motivated answer to my email address, so if you refuse I can use that for a request for help to the Alicante/Benidorm Bar association.

Payment up to 150.000 will not be a problem! And/or a huge bonus later is no problem either. Don't ask questions by telephone which can be listened to, just make a cita! In Albir would be great. Verbally I can give much more information with the relevant documents you need later. Speaking English(fluent?) is a must.
