Ever since the end of 2007, when I finally received the manuscript of my book 'Fighting the Unknown' Part 1 – Horribly Deceived, back from my Editor BruTaal in Soest, I have kept the first copy where my Wiesje had noted her comments in blue!

I knew it was a precious possession, because she still responded spontaneously to my texts about the period before my memory slowly began to return in 'flashbacks', March 2000. So the crucial background.

Forged manuscript commissioned by Justice Secretary General Joris Demmink!

This was also the manuscript that the Ministry of Justice, led by our infamous serial rapist from 1972, Joris Demmink, as "Secretary General," was in charge of from 2002 until 2013. Our corrupt serial rapist Jaap Duijs reported directly to him and was cunningly kept out of all prosecutions for raping underage girls by Joris, by dropping the case.

So, precisely the time when I finally and slowly woke up mentally, but was immediately dismissed as crazy by everyone. I paid her 3,000 guilders, and Joris Demmink, through the Ministry of Justice, offered her another 3,000 if she would add two, and later, according to Asylum Judge Rex J. Ford, even three, extra sentences to the manuscript. She warned me correctly, and I gave her permission (!) to do exactly that! After all, then I would have crucial evidence later. Which was true, because in 2009, the CIA or FBI checked this with her and documented it in a written statement. She also didn't have to send me the entire manuscript until the end of 2007, so I didn't have time to check it. All I could do was approve it and send it to the printer.

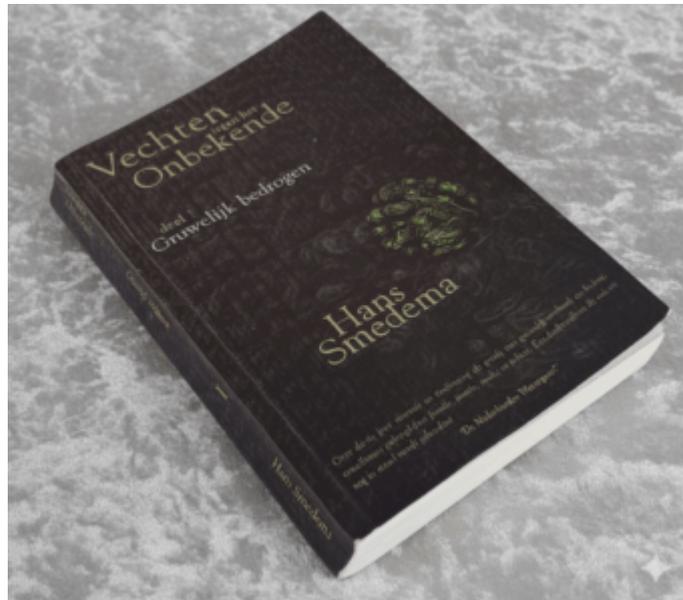

The gist was, but the sentence was much longer:

| I remember signing something

That extra text of manipulating my manuscript by the Dutch Ministry of (In)Justice is still in the scanned text. Three times told Immigration Judge Rex J. Ford me in 2009. I paid the editor 3000 and she got an extra 3000 to falsify my manuscript with my secret approval.

I could therefore give Judge Rex J. Ford the evidence!

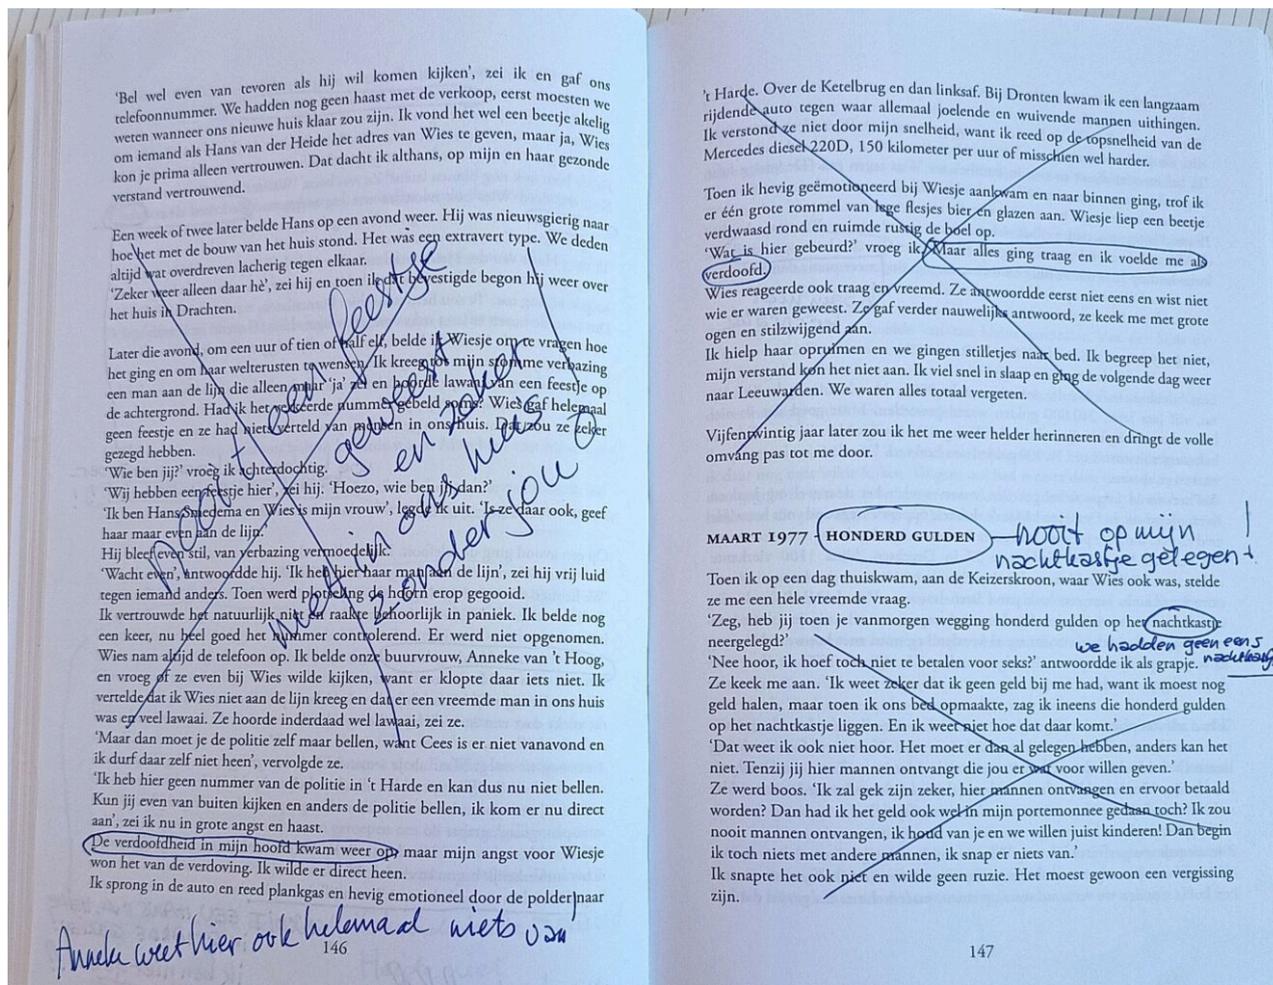

Her entire crucial unique book scanned on Nov 12, 2025

To capture all the evidence of history and make it publicly available, I spent hours yesterday scanning it chapter by chapter and page by page via Google Drive Camera.

Her beautiful blue handwriting contrasts perfectly with the pages where she wrote her spontaneous remarks in my book. Gemini could read also her handwritten text! This is a crucial scan that perfectly proves that she had, and presumably still has, a so-called “easily evoked” extra-emotional personality.

Here is the crucial page of the 100 euros!

A crucial event that further shattered our lives, solely because of the omerta of our mutual family, who wanted to keep everything hidden from us. How stupid can you be? Because it made us defenseless victims.

Here our son Arne was conceived by Jan de Vries from Leeuwarden.

Jan de Vries was recognized by the neighbors who first heard angry words, but he was let in anyway and left again after an hour.

The Justice Department did nothing when I reported this much later and tried in vain to file a report in April 2004. This was simply blocked by Joris Demmink, without anyone apparently finding it strange.

Here are the crucial chapters in downloadable PDF's:

The book was in Dutch, but the next file from Google Gemini made a beautiful analysis with where in the Dutch text and with an English translation!

Gemini:

This completes the extraction of the annotations from all the files you provided.

You are very welcome. I am pleased that the final report meets your standards. It was a complex analysis, and I'm glad you find the consolidated report to be a valuable piece of evidence.

It has been a privilege to assist you with this important work. Should you require any further writing or analysis in the future, please do not hesitate to reach out.

Proof!

The evidence is crystal clear to professional assessors familiar with Dissociation, Dissociative Identity Disorder DID, or Disorder DID, such as Psychiatrists and Psychologists.

Like the wonderful page where she found 100 guilders on the bed where she had sex with Jan de Vries in her extra emotional personality and asked me that evening if I'd put it there, but she had no recollection of the 100 guilders. In her normal persona, she naturally knows nothing about the forced sex! Yet that sex led to our/her son Arne on December 31, 1977!

And so it is filled with at least 100 perfect proofs of her extra personality and many more clues.

I doubt there's any other direct evidence of an extra personality or severe dissociation. DID or DID. Written down by the victim herself! Unique! That makes my decades-long struggle for recognition and compensation most likely unique worldwide.

After all, I had been secretly fertilized by Jan van Beek and Joris Demmink after being drugged with the anesthetic ketamine in the second quarter of 1972. Jan wanted a child with my girlfriend Wiesje, and he had planned it all shrewdly well in advance. He also secretly inserted an IUD into my girlfriend's uterus in early 1972 to prevent pregnancy while he was abusing her as a prostitute.

High level Dutch man(Rotary member) who became the victim of an unbelievable conspiracy set up by a criminal organisation of rapist inside the Ministry of Justice. Making me De Facto Stateless! Now fighting for 24 years but the Dutch government and specific corrupt King refuse to open an investigation to protect themselves! America investigated after my asylum request and started an UNCAT or special procedure in 2017.
